## PRINCE FUSHIMI SAYS FAREWELL TO CANADA

### His Imperial Highness Spoke Feelingly at Government House Dinner

### WISHES THE COUNTRY SUCCESS

Closing Event of Visit to Canada and  
British Empire Was a Brilliant  
Success

"I give in turn the toast of the people of Canada to whom I wish every success and prosperity."

These, the concluding words of his speech at the official dinner given in his honor last night at Government house by Lieutenant-Governor James Dunsmuir, formed his farewell message to the people of Canada, and today at noon, as the guns of H. M. S. Monmouth, which salute and the Kwazowaki, the flag of the Princess of the Blood of Japan entrusted to the British cruiser by the Japanese admiralty, breaks out on the warship's masthead Prince Fushimi will sail for home.

The dining room at Government house was decorated with iris, one of the flowers best beloved by the Japanese, and the table was prettily laid. About fifty guests were entertained at dinner with His Imperial Highness, and a ball, attended by 120 or more followed the dinner. Prince Fushimi took occasion at the dinner last night to deliver a speech, which was in effect, his farewell message to Canada. It was in reply to the speech of Hon. Mr. Pope, under secretary of state, that the Prince spoke.

Hon. Joseph Pope, under secretary of state, said:

"May it please your Imperial Highness: As the official who has had the honor of attending your Imperial Highness throughout this country, it has seemed to me not out of place that on the eve of your departure I should express to you in the name of the Canadian government the deep gratification and pleasure they have experienced in extending to your Imperial Highness the hospitalities of the Dominion."

"We have welcomed you, sir, as the representative of the friend and ally of our King, and of that dear land to which we owe loving allegiance, whose enemies are our enemies, and whose friends we delight to honor."

"We have welcomed you as the representative of your gallant race whose deeds of valor, constancy, endurance, whose high sense of public duty, and above all whose pure and exalted patriotism have won our warmest admiration."

"We, a young community, have derived a special gratification in being permitted to greet in the person of your Imperial Highness the most ancient civilization in the world. May I venture to add that we have welcomed you also, sir, by reason of your own gracious and winning personality."

"We bid you farewell with regret. We cherish the hope that you may revisit us some day. In the meantime we wish your Imperial Highness a safe and prosperous voyage to your native land, and we trust that you will bear from these shores a kindly feeling towards Canada and its people."

H. L. H. Prince Fushimi, in reply said:

"Your Honor, Mr. Pope, Ladies and Gentlemen: I am deeply gratified by the kindly sentiments towards my country and myself to which you have so eloquently given expression. I can assure you that it gives me the very greatest pleasure to have had this further proof of the friendship towards Japan on the part of the government of this vast Dominion."

"I shall ever consider it a great privilege to have had extended to me on this historic occasion the generous hospitality of the Canadian government, and to be thus given the opportunity of making the personal acquaintance of so many prominent men in this country."

"The journey across Canada has been full of interest to me, and I am very glad to have been thereby enabled to study at first hand the great natural resources of the country of which I had heard so much. I bear away with me the pleasantest of recollections of my brief sojourn in your midst."

"I consider it a place of good fortune to have had attached to my suite so able and trusted officials as Mr. Pope and I am fully aware that the smoothness with which all the arrangements for my visit have worked throughout were largely due to his untiring energy and forthrightness."

"I thank you for your good wishes at my departure, and with you I hope that in some future occasion I may be able to revisit these hospitable shores. The English adage that the best of friends must part is no doubt a very true one, but it is my earnest hope that the many friendships which I have established in this country may be long renewed."

"Before resuming my seat I wish to thank you, ladies and gentlemen, for the kind way in which you have responded to the toast of my health, which Mr. Dunsmuir was so good as to propose. I give in turn the toast of the people of Canada to whom I wish every success and prosperity."

Those present at the dinner were: His Imperial Highness, Prince Fushimi Sadanaru, G.C.B., His Honor Lt. Gov. Dunsmuir, Mr. Nagasaki, Mr. Baba, Archbishop Orth, The Bishop of Columbia, Hon. Chief Justice Gordon Hunter, Hon. E. Dewdney, Lt. Colonel Hon. E. G. Prior, Capt. Tucker, N. A. Hon. Mr. Justice Martin, Mr. T. R. Smith, Major Higashi, Mr. Macpherson, Hon. R. G. Fawcett, Hon. F. J. Fulton, Hon. H. E. Young, Hon. The

Speaker, D. M. Eberts, Commander Macshey, Commander Rigdon, Hon. J. Pope, Lt. Colonel Hall, Major Audain, Mr. Lamson, Lt. Commander Takeuchi, Captain Newton, Doctor Iwai, The Japanese Consul, Mr. Moulave, The American Consul, A. E. Smith, The German Consul for the Mainland, Mr. Wolfson, The German Consul for Victoria, W. W. Lowenberg, The French Consul, Mr. Duchastel, The Belgian Consul, Mr. T. R. Smith, Capt. Angus, Mr. R. W. Dunsmuir, Capt. Drake, Mr. Musket, Mr. Bromley and Mr. W. R. Baker, Mrs. Dunsmuir, Mrs. Prior, Mrs. Hunter, Mrs. Perrin, Mrs. Martin, Mrs. Ralph Smith, Mrs. Macpherson, Mrs. Tatlow, Mrs. Young, Mrs. Eberts, Mrs. Algood, Mrs. Hall, Mrs. Morikawa, Mrs. Audain, Mrs. A. E. Smith, Mrs. Duchastel, Mrs. R. W. Dunsmuir, Miss Dunsmuir, Miss M. Dunsmuir.

Invitations were also issued to the following: Hon. W. Templeman and Mrs. Templeman, Hon. George Riley and Mrs. Riley, Hon. Mr. Justice Irving and Mrs. Irving, Hon. Mr. Justice Morrison and Mrs. Morrison, Hon. Mr. Justice Clement, Hon. G. A. Walker, Hon. W. T. Tyrewhitt, Drake, W. Sloan, M. P. and Mrs. Sloan, Mr. and Mrs. James Kennedy, W. A. Gallher, M. P., Duncan Ross, M. P., Hon. Richard McBride and Mrs. McBride, Hon. E. Carter Cotton, Col. Holmes, D. O. C., Captain Elliston and Mrs. Elliston, the Mayor and Mrs. Morley.

His Imperial Highness held an impromptu levee in the drawing room. He wore ordinary evening dress with the red sash and decoration of the British order conferred upon him by H. M. King Edward and those of several orders, including the Rising Sun, Paulownia and others. The Grand Cordon of the Rising Sun and Paulownia were held only by ten being persons in Japan. Prince Fushimi does not speak English, his address last evening being delivered in Japanese and translated into English. He, however, converses interestingly in French. With his honor the lieutenant-governor he occupied a seat in the balcony, where were draped the union jack and rising sun flag, the greater part of the evening, retiring about 11 p. m. Some of the members of his suite joined in the dancing.

The ballroom presented a pretty scene. Its general beauty was enhanced by the throng of dancers, the gay coloring of the military and naval uniforms and the charming gowns of the ladies adding much to the splendor of the general ensemble. The orchestra of the Fifth Regiment, led by Bandmaster Rumsby, was on a dais at one side of the ballroom, and its well-timed music, with the smoothness of the floor, made dancing pleasant. In the intermission the lawn, covered with canvas at the brow of the hill outside the ballroom, was a favorite spot, the sheen of the moon on the shimmering waters of the straits being a most delightful scene.

The programme of dances was as follows: waltz, two-step, Rumba, waltz, Quond amour moult, waltz, Merry Oldsmobile, two-step, La Mateliche, waltz, Language des Fleurs, two-step, Silver Heels, two-step, Whistler and His Dog, waltz, Dreamland, two-step, Cheyenne, waltz, Souris d'Arle, waltz, Armenianville, two-step, The Glenlivet, waltz, "Fare thee hence, waltz, La Faut des Roses, two-step, Iola, College Life, waltz, Carissime.

## CAMPAIGN COMMENCES AGAINST HOUSE OF LORDS

### Premier Introduces His Promised Resolution in the Commons

### THE POPULAR HOUSE MUST RULE

Mr. Campbell-Bannerman's arguments are Combated by the Leader of the Opposition

London, June 24.—Premier Campbell-Bannerman today moved his resolution curtailing the power of the House of Lords before the fullest house of session. The galleries also were crowded, those present in that part of the house including many peers, who were anxious to observe the beginning of an attempt to reduce their power to control legislation.

The resolution follows: "That in order to give effect to the will of the people as expressed by their elected representatives, it is necessary that the power of the other house to alter or reject bills passed by this house should be so restricted by law as to secure that within the limits of a single parliament, the final decision of the house of commons shall prevail."

Replying to a question, the premier said it was not proposed that the resolution dealing with the House of Lords should be moved in the upper house after its discussion in the house of commons had been completed. He emphasized the fact that the resolution embodied the principle of predominance of the house of commons, and said that in adopting this course they were following certain historic precedents. The resolution itself, even if carried, would not have the effect of law or procure the desired results.

A bill would be necessary and the government would exercise its discretion as to when it should be introduced. His majesty's ministers now only desired to test the opinion of the house and make sure they had the house of commons behind them. They held the view that the house of commons alone was authorized to express the country's sentiment.

He declared that the only course open was to recognize ungrudgingly the constitutional authority which rested in the house of commons.

Amid loud ministerial cheers the premier protested that if this authority should be usurped by a non-elected house it would be a serious blow to the constitution. The government proposed that provision should be made for conferences between the house of commons and the House of Lords where differences arose over a bill. If no agreement was reached the bill should be reintroduced and sent to the House of Lords with a declaration that should a second conference fail to result in an agreement the house of commons would pass the bill over the heads of the lords.

Continuing the premier said that during the period of existence of a parliament to five years would effectively prevent "an effective government which had lost the country's confidence from forcing through unpopular and improper measures."

A. J. Balfour opposed the resolution and defended the House of Lords. He admitted that the house of commons was the constitutional predominant partner but declared that even if they abolished the House of Lords the country would insist upon a substitute.

## NOTHING DEFINITE ABOUT SPRING RIDGE

### Matter Was Left in Hands of Committee by the City Council

The report of the streets, bridges and sewers committee received at the regular meeting of the city council last evening dealt with several matters including the Spring Ridge pit gravel question.

It was as follows:

Recommended that a new bridge be constructed on Myrtle street over a creek at Oaklands, at a cost of \$30, the old one having collapsed entirely.

Recommended that a letter be sent to the councils of Oak Bay and South Saanich municipalities, asking them to avoid duplicating the names of city streets when naming new thoroughfares in their subdivisions, and that they be supplied with a list of the names of the city streets.

Recommended that a sewer be laid on Foot Bay road between Oak Bay Avenue and Levee road in order to abate the nuisance complained of by the Oak Bay municipality, on condition that the latter pays one-half of the cost, it being on the boundary and will afford connection to a number of residences of that municipality. The cost will be \$800.

Recommended that subdivision plan of lots 1 and 2, section 14, Beckley farm, be approved.

Re the matter of the Spring Ridge gravel pits again referred to this committee, we beg to say that the information regarding the improvement of said district is in the offices of the city engineer and city assessor, and is accessible to the council. Copies of the same are hereto attached.

The report was adopted after some little discussion. This was with regard to the Spring Ridge gravel pits. Ald. Fullerton insisted on the data forwarded with the report in this regard being read. The mayor asked in what manner he was to read a map and then Ald. Fullerton opened up. The question had been left unsettled at the last meeting. There was an effort to throttle the discussion of the matter. The report of the committee for the previous week had been returned to them for more data and this had not been furnished. He believed that they should furnish this.

Finally the report as read was passed, the additional data being tabulated for the week.

### New Ontario's Grievances.

Toronto, June 24.—Accompanied by all the Conservative members for New Ontario, the minister of lands and mines, Hon. Frank Cochrane, will leave on Tuesday, July 2 for the Thunder Bay and Rainy River districts. The party will hear the grievances of settlers.

## LONDON COMMENTS ON PREMIER'S MISSION

### Times Sets Forth Success Which Hon. Mr. McBride Has Gained

### FURTHER NEGOTIATIONS ALLOWED

### Two British Columbia Appeal Cases Decided by the Dominion Supreme Court

Ottawa, June 24.—The English press bears tribute to the success of Hon. Mr. McBride's mission to London. The Times of the fifteenth in a column article, largely explanatory conclusions, "With the act, the extension of British Columbia's right to continue to press its claims upon the Dominion."

The Supreme Court delivered many judgments today, among them two appeals from British Columbia, Elk Lumber company, vs. Crown Nest Pass Coal Co., was dismissed, with costs. Norton vs. Fulton was allowed with costs, justices Davies and McLennan dissenting. Announcement was made of the promulgation of revised rules of practice and procedure in the supreme court, to come into force from and after September 1. The term of the court adjourned until October. Among the cases left over is that of the Canadian Pacific vs. Ottawa Fire Insurance company, in which the province's power of chartering companies is involved.

### Sovereign Bank Stock

Toronto, June 24.—The first transactions in Sovereign Bank stock since the re-organization occurred today on the Toronto Exchange, when 115 was paid for a few scattered shares and the same price was bid for more.

### REPORTED DISASTER ON THE SKEENA RIVER

### Tug Sunk and Six Men Said To Have Been Drowned—Iron- moulders on Strike

Vancouver, June 24.—The report reached here this evening that the tug Constance, of New Westminster, had foundered in the Skeena river, and that Captain Neilson and five of her crew were drowned. Most of those supposed to be drowned lived in New Westminster. The report came through the captain of the tug Eve, who said he heard it from the Phoenix cannery at Steveston. No confirmation can be obtained.

It is stated here tonight that the iron moulders of Vancouver, Victoria and New Westminster will all go out on strike tomorrow. The cause of the trouble is said to be the demand of the men for \$4 for a nine-hour day, instead of \$3.75, formerly paid. A demand was made some time ago for an eight-hour day, but no reply being received the men asked for an increase in wages. As no reply has been received from the bosses the men say they will go out on strike tomorrow. The strike will affect about seventy-five men in Vancouver, and smaller numbers in the other cities.

James Mowat, aged 25, was killed today while crawling under a C. P. R. freight train to cross the track. The train was struck by a shunter and the wheels rolled over him. He was very much mangled and died on reaching the hospital. A Japanese was also killed on Sunday by a shunting engine as he was walking down the track.

### Death of J. H. Phillips

Quebec, June 24.—J. H. Phillips, one of the best known hotel men in Canada, until a few days ago manager of the Chateau Frontenac, died yesterday at the Hotel Eden, and was buried in Mount Hermon cemetery, his remains being followed to their last resting place by a large number of friends.

### Got Fair Wage Scale

Niagara-on-the-Lake, Ont., June 24.—Forty dollars and fifty cents is pretty fair wages for volunteer soldiers for ten days' camp service, and yet six of the recruits in the army service corps actually signed the payroll yesterday for that amount. They were bakers and demanded the "fair wage" scale according to the government's stipulation regarding work done under government contract. The six helpers in this department were also paid munificently as compared with the recruits in the other corps. They got \$1.50 per day. This is the first time in the history of the camp any such figure has been paid for the duty. The soldier-bakers claim that the corps couldn't have got bakers unless the union rate of wages had been guaranteed.

## DEFENCE OPENS CASE IN HAYWOOD TRIAL

### Counsel Darrow in his Address Dwells on Character of Federation

Bozoe, June 24.—The Haywood trial was resumed at 10 o'clock this morning, when Clarence Darrow began the opening address in behalf of the defence.

Mr. Darrow said in part: "The defendant here is charged nominally with the murder of former Governor Sternberg. There had to be some nominal charge, but the state has told you the plot rests upon a giant conspiracy, of which the defendant, among others, is a party. The state's attorney has told you that the murder of Governor Sternberg was part of the conspiracy. They have told you that the Western Federation of Miners was an organization to commit murder, to control politicians, to hire lawyers, and do other criminal things."

"This organization was born in 1892-93, right down in a cell beneath the courtroom, where Ed. Boyce, the first president, was a prisoner, and where now three men charged with this murder are awaiting the judgment of this jury. To start out with, they hired the best lawyers they could get. They hired Mr. Hawley, now the leading counsel for the state. Mr. Hawley laid out the plan of their organization for them. He advised them, he was the god-father of the Federation, and the men who formed the organization thought it was an honourable undertaking. Mr. Hawley continued their attorney for a long time. If there was anything criminal in their appropriating money for a lawyer, the miners did not know it. The Federation is an industrial, not a murderous organization."

Mr. Darrow admitted that the Federation had from time to time taken a hand in politics, but said such a

course was not criminal. There was no claim, he said, that it was an organization of angels. "Angels do not work in mines; they are the mine-owners," he exclaimed. Outlining the history of the Federation, Mr. Darrow said it was merely a beneficial body, trying to uplift its class. It was not until ten years after the organization of the union that either Haywood or Moser became officials.

"We are not here to apologize for anything the Federation has done," declared Mr. Darrow. "It has been a fighting organization from the first. It has had a troublesome career. It has been opposed by every device of the mine-owners, but it has prospered. Before the Federation came into existence the miners had to work from 12 to 14 hours a day. When they wanted food they had to buy it at the company stores. When they were injured they were taken to the company hospitals, where there was little difficulty in getting a statement releasing the company from all damages. "The conditions are vastly different today. The Butte union alone has paid more than one million dollars to the widows and orphans of its members."

He declared that in some communities the president of the organization was refused board and lodging by the mining companies.

"Arrests have come thick and fast," he continued. "Some of the charges are purely imaginary, and in 99 cases out of 100 the men have not even been given the grace of a trial. As soon as the Federation was born, the mine went about to destroy it, and as the chief means of destruction they hired Pinkerton detectives."

Mr. Darrow stated that the defense would prove that before Orchard left for Cheyenne he placed a considerable amount of money in Pettibon's keeping, stating that he would send for it from time to time.

## MUTINOUS SOLDIERS ARE SENT FAR AFIELD

### Precaution Taken in France— Wine Growing District Reported Quieter

Bozoe, France, June 24.—The mutinous soldiers of the Seventeenth infantry have been transferred from Agde without notice. Three other regiments quietly marched into that town today, entered the barracks and escorted the mutineers to a train, in which they were locked. A large number of mutineers came to Bozoe without permission, and were arrested on their return. The destination of the mutineers is kept secret, but is believed to be France, in the department of Hautes Alpes, far from the scene of their insubordination.

Paris, June 24.—A delegation from Nismes visited Premier Clemenceau today and pleaded for the release of M. Ferroux, ex-mayor of Marbionne, and the imprisoned members of the committee of Argelliers, and the quashing of the proceedings against the resigning mayors and other members of municipalities. M. Clemenceau replied that the government would show clemency at the proper time, but that nothing could be done until the mayors and municipalities had set an example of respect for the law by resuming their functions.

An incipient mutiny occurred today at the barracks of Avignon, fifty miles from Marseilles. Some soldiers hissed Colonel St. James, and sang a revolutionary song, forcing the colonel to retire. Later Lieut.-Col. Dalbier, in addition, dressed the men and restored order.

A despatch from Narbonne announces that Marcelin Albert passed through that city during the afternoon on his way to Argelliers, where he had called a meeting of the wine growers, committee of the municipality and the population tonight.

## MERCHANTS TO PICNIC AT LANGFORD PLAINS

Decision was Reached at the  
Meeting Held Last  
Evening

At a meeting of those interested in the holding of the merchants' picnic, which took place in the rooms of the Tourist association last evening, it was decided to hold the picnic at Langford Plains on July 25.

The picnic promises to be an especially good one this year, as the merchants are taking an active interest in the success of the event. Arrangements are being made for the expedition and satisfactory transportation

of the big crowd that it is expected will attend. The grounds are to be elaborately decorated and a first class programme of sports will be put on. Special arrangements have been made for a plentiful supply of water, both warm and cold.

**Drowned in Toronto Bay.**  
Toronto, June 24.—Seized with cramps, after a jump out of a sail boat into the bay to escape being struck by a paddle of the Island ferry, Emerson Wickett, aged 24, youngest son of Samuel R. Wickett, president of the Wickett-Craig Co., was drowned about 10 o'clock Saturday night. The body was recovered after an hour's grappling yesterday morning. The unfortunate young man was a graduate this year of the School of Practical Science, and preparing to enter the field of chemistry. Before entering the school he took a course at Pickering College. He was a member of the Toronto Canoe Club.

## CITY COUNCIL HOLDS PROTRACTED SESSION

Two Extensions of Time Were  
Necessary in Order to Complete Business

With two extensions of time, one of fifteen minutes the other of five, the city council were unable to transact all the business of the agenda paper last evening.

There were several questions in which different aldermen could not see eye to eye, there were a number of lengthy communications to be read and disposed of several by-laws to be advanced and even the Spring Ridge gravel question renewed again this evening. The council adjourned at 11:20 p. m.

The first communication read was a lengthy one from Mr. Justice Martin. It complained of the situation created by the recent change in the hours of lawn sprinkling. The change had caused much personal discomfort and additional expense to ratepayers.

The letter further asked some details as to whether the provincial government was charged for all water used. Mr. Raymur explained that when Mayor Barnard was in office the provincial government had pointed out to the city that it was as much in their interest that the laws in force of the provincial buildings should be kept in order. In return for the free use of water for sprinkling they consented to keep the terrace in front of the water on Belleville street, watered and cut. The motion thereupon carried.

The water commissioner further expressed the opinion that curtailment of sprinkling or of watering the streets would not prove a solution of the difficulty. The amount of water required at sprinkling time was twice the amount, about 3,500,000 gallons which the city could possibly supply. There would always be trouble.

The mayor interposed with the remark that it was not a question of getting revenue from the water but a case of giving everybody just what they required. The matter was finally left with the water commissioner to do as he thought fit with regard to the hours of sprinkling, and it is probable that this week the old hours will be returned to.

The question of the water supply for the agricultural grounds was next gone into.

J. E. Smart complained that during the race meet held there last week there was not sufficient pressure to supply water for the accommodation of the horses. After some desultory conversation the clerk suggested that it was altogether probable that the property owners affected might be willing to pay something towards putting in a larger main.

Ald. Gleason suggested that the entire question of a redistribution be gone into. He thought that steps should be taken to have the pipes all ready to put into commission as soon as a more effective system of supply could be obtained.

The matter was referred to the water commissioner for a further report.

W. S. Gore was present with a plan for the subdivision of a portion of section 48 between Bay and Ryan streets. He explained that the plan had been submitted to the council a couple of months previously. Exception had been taken to one of the roads which would cut off a portion of the Jewish cemetery. His principals, therefore, had withdrawn the portion of the proposed subdivision and the street objected to will not be opened at the present time. The plan was accepted.

Communications were received from the deputy minister of agriculture and Thomas Cunningham, the provincial fruit inspector, with regard to the caterpillar evil. The letter from Mr. Anderson stated that the government fruit pest men could not take up the responsibility of spraying foliage trees. The letter recommended that the trees be sprayed with arsenate of lead. It further brought to the attention of the council the plan pursued in some of the cities of the east, where prizes are offered to the scholars for the destruction of the eggs of the brown tail moth. The plan had been found to work satisfactorily. He recommended its adoption here.

Ald. Fullerton thought that what could be done in this connection was to enforce a by-law they already had on the books of the city. This was one which prescribed penalties for those who would not attend to the proper pruning of their trees, but left them to overhang the trees and property. He instanced Senator Macdonald's trees as an instance. The caterpillars were carried from one tree to another.

Ald. Vincent—"The caterpillars are traveling along the sidewalks the same as any other citizen."

The communication was received. A letter was received from the secretary of the Victoria Horticultural society asking a grant of \$100 for a rose show, and the flower show August 7 and 8. It was referred to the finance committee for favorable consideration.

A letter was received from James Leigh & Sons relating that on previous morning one of their boats had been released, a large number of logs drifting from the anchorage near the Point Ellice bridge. It was alleged that the trouble was caused by boys in swimming and they asked that a policeman should be stationed near their works to prevent swimming. The letter was referred to the police commissioner.

A letter from J. Camusa was received asking that the corporation proceed under the local improvement by-law to construct a sidewalk opposite his property on Cook street. It was referred to the streets, bridges and sewers committee.

drew the attention of the council to the state of the surface drain on Fernwood road especially between Walnut street and Edmonton road. The stench arising therefrom, the letter stated, was almost unbearable. Should any disease occur to his family from this filthy state of affairs he would hold the city responsible.

A claim for \$27 for damages done his automobile through the condition of Superior street as per his previous letter to the council, was presented by T. O. Mackay. He threatened legal action to enforce his demand. The letter was referred to the city solicitor for report.

W. Harrop was appointed city milk inspector in succession to Dr. Tolmie resigned. A letter from the late incumbent of the office was received praising the work of the new inspector who acted as his assistant for some time.

The water commissioner forwarded an application from Wootton and Goward on behalf of a client for an extension of the water main from Fairfield road along Shoal bay to the city boundary. The applicant offered to pay a proportion of the expense. The estimated cost of the extension was placed at \$1,050. The council directed that the applicant be written to the effect that the council cannot lay pipe at present except at the total expense of the petitioner.

A communication from the city assessor informed the council that there had been filed with him plans of the proposed new Merchants Bank building, an extension to Wilson & Sons store to front on Tronnie Alley and a new brick building to be used as a stable on Cormorant street. The council directed that permits for the above buildings be issued.

Leigh & Sons petitioned for a sidewalk on the Agyll road to be constructed under the local improvement by-law. The application was turned over to the streets committee for report.

The city solicitor reported that the deed of the waterfront lot had been received from the Dominion government.

A resolution asking that the city purchasing agent be directed to call on tenders for certain supplies for the lighting department and repairs to the engine was passed.

Ald. Fullerton took exception to the re-appointment of the entire five members of the Jubilee hospital board nominated by the council. He had been informed that some of them were not regular attendants at the sessions of the board. He was prepared to nominate several others but withdrew his motion after he had suggested the names of Messrs. Humphries, and Cramp. The five former members Messrs. Brett, Forman, Spencer, Day, and D. E. Campbell were thereupon re-elected.

Permanent sidewalks construction No. 16, local improvement by-law was advanced to its third reading. It will come up for a passage at the next meeting. It calls for the construction of sidewalks on the following streets: Humbolt, Cook, Chester, Linden Avenue, Oscar street and the Fairfield Road.

The council adjourned at 11:20 p. m.

## DELEGATES DISCUSS

### BROTHERHOOD WORK

Conference Closes With Social  
Session in St. John's  
Schoolhouse

The Second Pacific conference of the Brotherhood of St. Andrew was brought to a close last night with a social session in St. John's school house at which many ideas on how best to carry out the objects of the organization, were exchanged. This part of the conference was of an informal nature, and it was not until a late hour that the members tired of their interesting discussion.

During the proceedings yesterday a number of instructive addresses were delivered. The conference was opened with a corporate communion at St. Andrew's church, after which breakfast was served in the schoolroom.

Business was taken up at 10:30 in Christ church cathedral, the Rev. Canon Beaudin presiding. The subject of discussion was "The Church's Duty." It was divided into two parts, "To Win the Man," and "To Hold Him," the former being dealt with by J. A. Birmingham, and the latter by C. H. Hewitt. The discussion was brought to a close at 12:30 p. m., after which luncheon was served in the schoolroom.

The conference was resumed at 2 p. m., with the Rev. C. E. Cooper in the chair. "Junior Chapter Work" was discussed by E. G. Boulton and J. A. Birmingham, both of whom dealt intelligently with the importance of interesting the boys of the church in the work which the brotherhood offered for Christian workers. Rev. A. J. Stanley and G. Ward Kemp discussed "Brotherhood Work in Connection With the Tide of Immigration," and suggested some splendid methods. "Service" was discussed by H. Perry, and was ably dealt with by H. Perry, though and J. S. Bailey. The need of this work and the qualifications of those who undertook it were emphasized by both speakers.

The evening session which completed the conference was held in St. John's schoolhouse, the Rev. A. J. Stanley presiding, when the subject of "Brotherhood Rules" was discussed by Rev. A. H. Sovereign and H. O. Litchfield, the former dealing with "Prayer" and the latter with "Service." At the conclusion of this discussion refreshments were served, and then the gathering took on a purely informal nature.

The thanks of the conference were tendered to the ladies of the different Anglican churches of the city who had so graciously opened their homes for the delegates. Rev. Mr. Bruce, secretary of the Victoria Y. M. C. A. was thanked for the kindly interest he had shown by calling the attention of churchmen, who are members of the association, to the conference.

**Insane from Horror.**  
Montreal, June 24.—Albert Houston, a Toronto engineer, arrived here Saturday en route from the Isthmus of Panama, where he met with an accident three months ago, which caused paralysis and unbalanced his mind. He had been away from his home for three months, and was threatened to cause great destruction and probably would have drowned 2,000 workmen. Houston sized up the situation at a glance and acted, meanwhile calling for help. It was hours before relief came and saved the situation. It was too late to save Houston. He was away to a physical wreck, with no hope of recovery. He screams at intervals as the memory of the awful sight of tumbling waters comes to his mind.

## LIQUOR LICENSE BYLAW LAID OVER ONE WEEK

In Meantime Court May Be Giving Judgment on Validity of Measure

The application of Ald. Vincent for leave to introduce a bylaw amending the Liquor License Regulation bylaw was received at the meeting of the city council last night and was tabled until the next meeting, as it was thought that in the intervening time a judgment upon the case now taken on deliberation might be obtained, thus obviating the proposed amendment.

The motion set forth that the bylaw should be amended striking out the sections requiring changes to property. In support of his proposal Ald. Vincent referred to the claims of the delegation a week before. He thought they had proved to the council that the sensible thing to do was to hold over the bylaw until the higher courts had decided whether or not it was ultra vires of the council.

Mayor Morley—"Do you know the condition of affairs with regard to the licensed premises in this city?"

Ald. Vincent—"I know that we will likely have to pay the cost of the changes if the bylaw goes through as now constituted."

The mayor dissented from this and Ald. Vincent continued. The delay in enforcing this clause would not be detrimental to the city in any way. It was not right to shove things like this down people's throats. They have as much right here as any one and he only proposed to yield them fair play.

Ald. Gleason got on his feet and declared these reasons insufficient and then Ald. Ross who ordinarily takes little part in the council debates, got upon his feet.

"I believe," said he, "that this bylaw doesn't belong to the British Empire but to Russia. There are clauses in it which ought not to go through. We're here to do justice to all classes of our citizens and I believe that if the bylaw is at present constituted, it was placed before the property owners they would turn it down."

Ald. Gleason—"I asked the mover of the resolution on what grounds he has brought it in. He has not cited any good or sufficient reason for so doing. He has cited the opinion of three or four gentlemen who represented nobody but themselves. We ought not to lose sight of the fact that at the last municipal elections we had the question, contained in the bylaw submitted to the ratepayers. It carried."

Ald. Vincent—"Was it a large majority?"

Ald. Gleason—"It was a majority. I think that those who voted for it should have their recommendations put into effect. The bylaw carried unanimously in this council. If the mover of the present motion had wanted the matter left over for a week until the full court had given a judgment he could understand his position."

Ald. Vincent pointed out that it might be months before a judgment would be rendered.

The previous speaker, however, pointed out that if the matter were left over until next November it would be too late for the present council to deal with.

Ald. Hall moved in amendment that the motion should be tabled for a week.

The mayor stated that there was nothing in the court proceedings but to show that the full court looks upon the council's contention as but a fair one and well within their right. The effort of the vintners was to do away with any supervision whatsoever of the part of the council.

City Solicitor Mann thought a short delay advisable. It could at least do no harm. The council might desire to make changes in the bylaw themselves should the court decide that some of the provisions were ultra vires of them, such as the providing that saloons should be closed on Christmas Day and the one which forbade the serving of women in any bar. He was opposed to the change. There was a crying need for the new regulations. With the exception of one or two of the provisions of the bylaw were very much what they ought not to be. They were nests of cubby holes, besides which Chinatown was as nothing.

Ald. Vincent—"But it's not the saloon keepers. It's the property owners."

Mayor Morley—"I don't think you had better press that argument. Ald. Vincent. It's a crying shame that some of our best citizens and people of influence are responsible for the terrible condition of affairs here."

Ald. Henderson thought it safer to grant the proposed bylaw amending the regulations. The regulations would affect first-class hotels. It is impossible for the new C. P. R. hotel to comply with the regulations. The barroom was not on a main thoroughfare and it is impossible to obtain a full view of it from the street.

Finally the amendment was carried and the proposed amendment bylaw tabled for a week. Those who voted for the amendment were Aldermen Vincent, Hall, Henderson, Vanderinder and Ross; says Mayor Morley, Aldermen Gleason and Weston.

## OBITUARY NOTICE

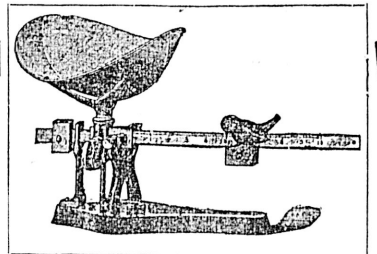

By the death of Mrs. Sarah Williams, which took place early yesterday morning, there passed away another of British Columbia's pioneers. She had reached the advanced age of 92 years, and was in comparatively good health up to three years ago. She was a native of Bradford, Yorkshire, England. Her first place of residence in America was at New Orleans, La., where her husband was engaged as a sugar planter. Mrs. Williams shortly afterwards removed to Panama, California, and for some time conducted a quartz mill at Yreka, which was then, as it is now, a famous gold producing district. In 1858 Mr. and Mrs. Williams, attracted by the excitement of the rush to the gold fields of this province, came to Victoria on a sailing vessel, the trim from San Francisco occupying three weeks. Immediately they constructed a hotel called the "What Cheer" house which occupied the site of the present Dominion hotel. This building was one of the first wooden buildings in Victoria and was made of lumber brought from San Francisco, lumber being held at fabulous prices in Victoria at that time. Mrs. Williams conducted the What Cheer house successfully for some years. Her husband suffered a paralytic stroke shortly after their arrival here, and remained so afflicted until his death in 1871. Mrs. Williams was also a pioneer of the Cowichan Valley, having removed there after her husband's affliction in the hope of

thereby benefiting his health. She lived on the "flats" for many years, the present owner of her old home, said being Clement Livingston, manager of the Tyee Copper company. Here Mrs. Williams for some years conducted a summer boarding house, there being no hotel in that valley at that time, and the fine attractions of the district caused many from Victoria and elsewhere then as now to spend their holidays there. In 1890 Mrs. Williams removed to Victoria, where she has resided ever since. She outlived her entire family of ten children, the last surviving member of which, Mrs. A. Dadds, died in 1900. She leaves seven grandchildren five

great grandchildren and a host of friends to mourn her loss. The funeral will take place from the parlors of the B. C. Funeral Parlor company, Government street, tomorrow at 2:30 p. m.

The funeral of the late Joseph Backus took place yesterday afternoon from Smith's undertaking parlors, Yates street, a large number of friends of the departed being in attendance. The pallbearers were A. R. C. Anderson, J. J. Fisher, J. Whitely and T. Anslie. Rev. A. E. Roberts conducted the funeral services.

## Mark the Mark

Because of that imitation which implies flattery, but really works harm to the genuine we ask you to look for the Semi-ready Signet of Surety—even when you buy the garment in our own Semi-ready stores.

This is it—the Signet of Surety

Plainly marked on the Trade mark is the price of the garment. No need to ask the price. It's there. It's the same price to you as to the Duke of Newton or to the farming Laird of Donlands.

Always cash and always the same—with the mark of quality which means an absolute guarantee.

**No Red Flags.** Novgorod, Russia, June 24.—The Governor of Novgorod, Count Medem, has caused to be posted in the cities and villages of the province an order declaring that the troops will use their arms to disperse every meeting at which a red flag is shown or revolutionary songs are sung.

**Emigration Investigation.** Vienna, June 24.—The American immigration commission, having completed its work in Italy, will soon visit Trieste and study emigration methods at Austro-Hungarian ports. The American embassy has informed the foreign office of the commission's plans, and has communicated the commission's desire to proceed only in a manner agreeable to the government.

**Popular Cure for Croup**

Anyone who has tested Dr. Chase's Syrup of Linseed and Turpentine as a cure for croup will not hesitate to pronounce it an unequalled success. It is wonderfully prompt in loosening the cough, clearing the air passages and soothing the excited nerves. Many mothers who realize the suddenness with which croup comes on keep this great medicine constantly at hand for use in case of emergency.

**Closing Opium Dens.** Shanghai, June 24.—Investigation shows that the official order closing the opium dens in the Chinese part of the city has been obeyed. No disturbances occurred.

**Let me send you free, for Catarrh,** just to prove merit, a Trial size box of Dr. Shoop's Catarrh Remedy. It is a snow white creamy, healing antiseptic balm. Containing such healing ingredients as Oil Eucalyptus, Thymol, Menthol, etc., it gives instant and lasting relief to Catarrh of the nose and throat. Make the free test and see for yourself what this preparation can and will accomplish. Address Dr. Shoop, Racine, Wis. Large jars 50 cents. Sold by Cyrus H. Bowes.

**Magistrate Drowned.** Pincher Creek, June 24.—A. M. Morden, police magistrate here, was drowned yesterday in Pincher Creek.

**Automobile Fatality.** Dieppe, France, June 24.—An automobile in which an American, John Ryan, and his wife and three other persons were riding, was ditched yesterday in trying to avoid a car. Mrs. Ryan was killed and the others received injuries. Mr. Ryan represents an American auto firm in France.

**LUMBERMEN MAY BE PROCEEDED AGAINST**

Deputy Attorney-General of Alberta Makes Statement on Subject

Calgary, Alta., June 21.—S. B. Woods, deputy attorney-general of the province, discussing the alleged lumber combination said that some misconception existed as to the attitude and duty of the Dominion government in such matters. The house of commons had at the instance of one of its members appointed a committee to investigate the charge that combine existed. That committee had taken a number of days and had reported that in its opinion an unlawful combination did exist. At this point, said Mr. Woods, the relation of the Dominion government to the matter ceased. The evidence had been printed and an unreviewed copy of it had recently been handed to him from Ottawa, but Ottawa could do no more. The deputy attorney-general expressed the opinion that the attitude of Hon. A. B. Aylesworth to the question had been the only one open for him to take. The administration of the criminal law was in the hands of the province, and it was through the criminal code that any unlawful combination must be attacked. Mr. Aylesworth had said that the matter was now entirely in the hands of the provincial authorities and in this he was undoubtedly right.

Asked as to what the provincial government intended doing about it, Mr. Woods said that he was now busy reading evidence taken by the committee with a view to deciding whether an indictment should be brought, and, if so, in what form and against whom it should be laid. The evidence was very heavy and would take some time to read. He would advise the government at the earliest possible date as to what course should, in his opinion, be pursued.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative and my book on either Dyspepsia, The Heart, or The Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys, as well as their controlling, inside nerves. Weaken these nerves and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free book now. Dr. Shoop's Restorative sold by Cyrus H. Bowes.

**A VAST RAILWAY SCHEME.**

United States Company to Build From Cardston to Fort McMurray.

Cardston, Alta., June 20.—American railroads are beginning to realize the possibilities of the Canadian northwest and numerous plans have been prepared to cover the country with a network of lines between Winnipeg and the Pacific coast. The Northern Empire Railroad Co. is the latest aggregation of Americans organized for the purpose of building a railway into Canada. From the route may already prepared it is evident this company has enormous capital at its back for its proposed line some 1,000 miles in length through the wildest and most unknown country in western Canada. It will cross the international boundary near Cardston, Alberta, and from thence will run due north to Fort McMurray on the Athabasca river and on the route to the rich oil lands of southern Alberta and in turn go through the coal country and, on the prospect of the oil discoveries in Athabasca proving valuable, make a beeline from Fort McMurray to Fort Vermilion, directly through that country in which several dozen parties of American prospectors are now working on asphalt. The gigantic nature of the work becomes apparent upon leaving Fort Vermilion, for then the real troubles of the contractors begin. Mighty rivers and the difficulties of the Rocky mountains are to be overcome and it is estimated that the work on the section alone will average fully \$100,000 per mile, but in return the promoters will derive the benefits from tapping one of the richest mineral districts in the whole Dominion, left dormant for years owing to lack of transportation. Along the route almost every mineral is to be found. The American continent exists in paying quantities and some of the deposits are fabulously rich.

J. B. T. Caron, an Ottawa solicitor, is acting for the applicants, and so far the names of the principals have been kept in the background, but it is the general belief the new company is a Northern Pacific branch, that company having been particularly anxious to get

**GROWING OLD WHILE YET YOUNG**

What a number of women there are who feel that these words exactly suit their case.

There are thousands of females all over our land, broken down in health and dragging out a miserable existence, overburdened with disease peculiar to their sex, apparently growing old while yet young, have been on the go year after year, attending to the household duties. Is it any wonder then that sooner or later there comes a general collapse? Palpitation of the heart, nervous prostration, smothering and sinking spells, weakness, dizziness, sleeplessness and many other troubles follow. What a woman wants is something to build up the system and for this purpose you cannot equal

**MILBURN'S HEART AND NERVE PILLS**

Mrs. W. J. Russell, Vasey, Ont., writes: "At one time I suffered greatly from my heart and nerves, and the shortness of breath was so bad I could scarcely do my housework. A friend of mine advised me to try Milburn's Heart and Nerve Pills, which I did and I only took them for a short time before I was better."

The price of Milburn's Heart and Nerve Pills is 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

back into Canada ever since its lines in Manitoba were bought out by the Canadian Northern some six years ago.

**Kidnapped Boy, Beheaded**

New Orleans, June 24.—The beheaded body of the kidnapped Lamana boy was found today. Five Italians are under arrest and the police are taking precautions to prevent a lynching.

**Balloonist's Body Found**

London, June 24.—All doubt as to the fate of Lieut. Caulfield and Leake, of the Royal Engineers, who made a balloon ascension from Aldershot camp on May 28, has been removed. The body of Lieut. Caulfield was picked up at sea near Weymouth yesterday. It was fully dressed but the features of the officer were unrecognizable from decomposition due to long immersion.

**Japanese Sound Warning**

Tokio, June 24.—An informal meeting was held this afternoon by delegates from the chambers of commerce of Tokio, Osaka, Kobe, Kioto and Yokohama. A report was drafted indicating the grave danger facing commerce of the United States and Japan owing to the anti-Japanese sentiment on the Pacific coast. The necessity of resorting to speedy measures to remove this obstacle to the development of trade relations was pointed out. At the next meeting, to be held within a few days, the resolution will be given official force and will be sent to the principal chambers of commerce in the United States, asking their co-operation.

**SOCIALIST MOVEMENT HAS INVADED JAPAN**

Ten Thousand Striking Miners Arm Themselves and Burn and Destroy Property

Following the recent labor troubles at the Ashio copper mines and Muroran collieries serious disturbances are reported at the Besshi copper mines near Miyazoshita, Japan.

According to advices received by the Empress of Japan ten thousand strikers have burned nine buildings, destroyed much property, killed the chief of police at Suimoto, and attacked a regiment of soldiers sent to quell the riot. The miners armed themselves with rifles and ammunition taken from the mining company's magazine, which they destroyed. Dynamite cartridges were also used by the rioters. Many scenes of violence were enacted and a number of fatalities have been reported. Ringleaders of the strike movement are said to be socialists alleged to have fomented the troubles at the Ashio mines. Damage done to the mines is estimated at over one million dollars.

**FRUIT CROP OF CANADA**

Ottawa, June 24.—The small fruit crop of Canada for the light this year and the crop of larger fruit will be heavy. The fruit branch of the agricultural department says that the plum crop will be the largest on record. Indications are that the apple, pear, cherry and peach crop will be good. The apple crop in British Columbia is said to be assured.

**In the Electric Chair**

New York, June 24.—John Johnson, wife murderer, was put to death in the electric chair in Sing Sing prison early today. Jail officials pronounced the electrocution successful, only two contacts being given. Johnson murdered his wife, Catherine, in Yonkers five years ago in the presence of their two children. He was an ex-convict and treated his wife badly, and shot her when she threatened to leave him. Albert Patrick, the lawyer convicted of the murder of the millionaire, W. Marsh Rice, took deep interest in Johnson when the two were confined together in the death house of Sing Sing prison, and it was upon the advice given by him that Johnson by appeals was able to stave off death up to this time.

**Beware of Ointments for Catarrh That Contain Mercury.**

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, and the damage they inflict when entering it through the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by E. J. Cheney & Co. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

**MANUFACTURERS PROSECUTED**

Census Department Proceeds Against Firms Failing to Report

Ottawa, June 24.—Criminal proceedings are being instituted against ten Canadian manufacturing concerns for failing to furnish information to the department of census and statistics which has recently been compiling a census of Canadian manufacturers. A blank form was mailed some months ago to every manufacturing concern in Canada to be filled out and returned. A number of firms, however, failed to do this and they should not be required to disclose their conditions. The department sent a second circular assuring them that the information given would be treated with confidence, and pointing out the penalties for failing to comply with the law. Information is being gathered for the purpose of making things inconvenient for those who refuse to give information when asked to do so.

**Size of the Atom**

In a recent address delivered at Lehigh University the author gave the following illustration of the minuteness of the atom: If you fill a tiny vessel, one centimeter cube, with hydrogen gas, you can place therein in round numbers, five hundred and twenty-five octillions (525,000,000,000,000,000,000,000,000) of them. If these corpuscles are allowed to run out of the vessel at the rate of a million a second, it will require seventeen quintillions (17,000,000,000,000,000) of years to empty it. Such a computation seems almost like telling with the human intellect, but it is with these subtle theories that our physicists are wrestling, delving into the innermost chamber of the infinitely minute to build up a picture of the stable foundation, the macrocosm of a universe.

—John A. Brashear.

**LARGE INCREASE IN RICE FROM JAPAN**

Shipments This Year Are Three Times Larger Than Last Year

Rice is the Japanese product which finds the largest market in Canada from Japan, according to a recently issued trade report from Alexander McLean, Canadian trade commissioner at Yokohama, Japan. Returns for the first three months of this year, as compared with the same period last year, show an increase in every Japanese export to Canada excepting silk, which declined. The rice shipments grew three times those of the three months of last year, and tea, matting, porcelain shipments to Canada also increased. The rice shipments to March 31 of this year totaled \$62,720, as compared with \$22,590 of the same three months of last year, and tea shipments were valued at \$3,841 for the three months of this year, compared with \$21,942 of last year. Shipments of habutai silk up to March 31 amounted to \$60,714, as compared with \$81,603 of the same period last year, and figures for the imports of silk from the archipelago were \$107,488; 1906—\$16,088. There was an increase of one-third in matting shipments. In the same period the shipments of flour from Canada totaled \$11,156, as compared with \$19,835 for the same period of the previous year.

The Canadian agent gives the following general returns of Japanese imports for March and with comparisons of the first three months of this and last years, as follows:

March, 1907.	1907.	1906.
Flour, wheat, \$20,556 87	717,519	\$1,367,056
Butter, 1,185	9,922	18,129
Salted salmon, 2,479	119,161	168,803
Con. milk, 44,179	193,613	190,149
Fertilizers, 675,521	1,763,812	980,334
Leather, suit, 3,185	9,922	18,129
Lead, pig, ingot, 5,386	99,814	245,243
and slab, 5,386	112,339	239,000
White shirt's, 33,680	99,261	762,921
Cotton, 44,452	99,261	762,921
Cotton duck, 6,843	14,507	18,155
Cotton prints, 35,696	167,579	214,568
Cotton sathes, 48,122	193,691	296,706
and haddus, 48,122	205,125	294,117
Pulp, sulphate, 65,820	205,125	294,117
TOTAL IMPORTS.		
Three months ending March 31, 1907.	1907.	1906.
March, 1907.	860,826,952	\$54,522,394
\$21,699,788		
TOTAL EXPORTS.		
Three months ending March 31, 1907.	1907.	1906.
March, 1907.	\$47,338,474	\$15,477,816
\$10,539,921		

**TO KEEP THE SKIN IN HEALTH**

Avoid Pore-clogging Powders and Cure All Skin Irritations and Eruptions With Dr. Chase's Ointment.

It is quite possible that, while you know of Dr. Chase's Ointment as a cure for eczema, psoriasis and the most severe forms of itching skin disease, you may have overlooked its value as a beautifier of the skin.

There are minor forms of skin trouble such as rough, red skin, chapping, pimples, blackheads, blotches, irritation, or poisoning from clothing etc., which disfigure and form a starting point for serious trouble.

A few applications of Dr. Chase's Ointment at such times not only remove these blemishes, but also restore the health and beauty of the skin and positively prevent further development.

Dr. Chase's Ointment is delightfully pure and creamy, is pleasant to use, and is rapidly absorbed. It acts as a food for the skin, making it soft, smooth and velvety. By its soothing, healing and healing properties it allays inflammation, relieves itching, and heals sores, wounds and ulcers. It is sold at all dealers, or Edmondson, Bates & Co., Toronto.

**"HOD" STUART KILLED**

Ottawa, June 24.—Wm. Hodgson Stuart of Ottawa, known all over Canada and the hockey districts of the United States as "Hod", and last winter the famous cover point of the champion Wanderers' hockey team, of Montreal, was accidentally killed at Belleville yesterday afternoon. Under his father, Wm. Stuart, of Ottawa, who has the contract of a new drill shed at Belleville, Stuart was acting as an overseer, and while working on the day decided with a couple of companions to go bathing at the end of the Grand Trunk railway track. Stuart undressed and swam to the lighthouse, about a quarter of a mile from shore, where he climbed to the rocks and evidently decided to return, and dived into the water at a point where it was only two feet deep. Not rising to the surface those who saw him dive knew something was wrong and immediately put off in a boat. Arriving at the scene the party soon found the poor fellow's body dragging on the bottom. He was beyond aid and medical examination revealed the fact that his skull was fractured, and his neck broken from coming in contact with the rocks beneath.

**MR. REDMOND'S PROGRAMME**

Irish Agitation For Complete Home Rule.

Dublin, June 24.—J. E. Redmond delivered an address at Wexford yesterday at the ceremony attending the unveiling of a memorial to Westfordians who fell at the battle of New Ross in 1798.

He gave a defiant warning to British statesmen saying:

"We tell England that we hate her rule as bitterly as did our forefathers when they shed their blood on this spot. We tell her that we are as much rebels to her rule today as our forefathers were; we tell her that she can change that hatred only by granting freedom, and so long as she withholds freedom, it will strike at the power that holds our country in bondage."

Sixty-four representatives of the districts of seventeen members of the

**THE CHIEF CONSIDERATION**

In investing money the most important point is safety. Fortunes can be made by speculating in wheat, real estate or stocks; and fortunes can be lost in the same way. The wise man looks for something surer, even if it looks smaller. The advantage a savings bank account has over all other investments are its absolute safety and its increasingly steady growth. We give every attention to large and small accounts.

Every Description of Banking Transacted

House of Commons attended a meeting of the National Directory of the United Irish League, John E. Redmond presided. The object of the meeting was to take steps to organize an Irish protest against the continued denial of self-government for Ireland.

Great unity of purpose was shown, and it was resolved to hold a series of popular demonstrations throughout Ireland to endorse the declaration of the national convention that nothing short of national autonomy will satisfy the Irish people, and lead to peace and content, as well as to impress on the minds of British statesmen the necessity of finding some acceptable solution of the question.

The people are to be asked to cease the use of British manufactures and to insist that the children be taught the Irish language in the schools.

Besides approving a number of other planks in the national policy, a resolution was unanimously adopted expressing confidence in the Irish party and approval of its withdrawal from the Liberal alliance. The directory, however, rejected by a vote of 80 to 7, a motion inviting the co-operation of William O'Brien, member for Cork, and Timothy Healy, M. P., for the North Division of Louth, and rejected also a vote of 80 to 4 a motion favoring the retirement of Nationalist members from parliament, which was strongly advocated by some of the most extreme members of the league.

Mr. Redmond expressed to the Associated Press his satisfaction at the result of the meeting, and said that he anticipated a great popular agitation, "with Home Rule as the sole plank of its platform."

Chas. K. Dolan, member of the House of Commons for Leitrim, north has now decided to resign his seat in the house and appeal to his constituents for re-election. Mr. Dolan at the recent meeting of the National Directors of the United Irish League supported resolutions calling upon the Irish members of parliament to resign. These resolutions were defeated, and later Mr. Dolan wrote to the senior whip severing his connection with the Irish party, but declining to resign his seat.

**Piles Make Life Wretched**

It is a mistake to imagine that the effects of piles are local, for, as a matter of fact, they sap the vitality of mind and body and slowly lead in the ruin of the system. The most instant relief from the itching, burning, stinging sensations of piles, and is a thorough and positive cure for every form of this wretched, torturing, and oftentimes, stubborn disease.

**THE "UNWRITTEN LAW"**

Invoked in Case of Former Judge Loving in Virginia

Houston, Va., June 24.—The trial of former Judge G. L. Loving, of Nelson county, for the murder of Theodore Estey, son of Sheriff H. K. Estey, of Nelson county, began in the circuit court today. Judge Marks presided. The trial promises to eclipse in interest and sensation of the McCreary and Sutherby Waters cases in Culpeper. It will again put to test the "unwritten law."

Judge Loving, armed with a double-barrelled gun, instantly killed young Estey, while he was unloading a car of fertilizer in Oak Ridge on April 22. The shooting was a sequel to a bitter ride taken on the eve prior to the homicide by young Estey with Miss Elizabeth Loving, the 19-year-old daughter of Judge Loving. The girl when brought home had been drinking, and it is alleged that her escort had maltreated her. Acting on the impulse of the moment, the father had been dragged and assaulted. Judge Loving immediately went in search of Estey. After the shooting he said: "I shot to kill. Every drop of blood in my body called for vengeance, and would have gone a hundred miles to kill him."

Backed by the millions of Thos. Ryan, of whose Virginian estate he has been overseer for a number of years, and with powerful political influence, every device known to the legal fraternity will be utilized in the efforts of counsel for the defence to acquit Judge Loving. The plea of the defence will be emotional insanity, and the "unwritten law." Relatives of young Estey, whose family connections extend to the governor of the state, will exert every effort to clear the memory of the dead man from any stain of wrong doing.

Miss Loving, who has lived in seclusion since the tragedy, appeared in public yesterday for the first time. She showed no signs of her experience. Two special coaches from Lynchburg, one reserved by the defence and the other by the prosecution, brought 110 witnesses and two corps of lawyers here last night. A venire of sixty has been summoned.

Three months ..... 1 25  
Six months ..... 2 50

London Office, 90-93 Fleet Street.

#### A GROWING TIME.

So far this year people have been coming into Canada by way of the Atlantic ports at the rate of one thousand a day. How many are coming from south of the boundary line we are not informed, but they are many. Practically all these people will become producers of wealth. The majority of them are seeking the soil, where they will produce those things which the world needs. This is a splendid state of things. Canada has been discovered, and the world is hastening to take possession of the new land of promise.

In our own province the outlook is of the most encouraging nature. There are opportunities at every hand. If people wish to do anything, now is the time to do it, for there is no need of waiting until the prospects are brighter. They never were any brighter in any age of the world or in any country, so let us all act accordingly. We do not suggest that this is a time for inflation. It is not. It is a time for the intelligent utilization of the great resources and the matchless opportunities, which are available. Professor Saunders, of the Experimental Farm, told a Vancouver interviewer that the price of farm lands was too high on Vancouver Island. Of course values are relative, but we strongly advise people, who have more property than they care to hold to place it on the market at a price that will bear investigation. There are so many chances to use money profitably that a landowner can afford to sell at moderate prices because he can turn his cash to other profitable purpose.

There is a shortage of labor, but this means that there is a plethora of work. Instead of lamenting this, as many do, let us try to think what it means. It signifies that every one who wants to work can get something to do at good wages, very good wages in the majority of cases. Why should we lament over such a state of things?

This being a growing time, it seems to the Colonist that now is our opportunity to advance all great undertakings upon which the future of our city depends. Among these is rail connection with the Mainland. It would be criminal to allow the present growing time to pass without securing the beginning of this great project. By and bye times will get hard. They always do. Let us not wait until then to strive for the accomplishment of a public work, which will make Victoria the premier city in Western Canada.

#### A BAD ROAD

The attention of the City Council is directed to that piece of road between the crossing of the E. & R. railway tracks and the city limits. In the first place it is exceedingly rough. In the next, it is exceedingly dirty. In the next, the ditch on each side, which is partly obscured by bushes and ferns, is exceedingly dangerous. One night not long ago a hack was being driven along this road, when the horses took alarm, and springing to one side, the wheels were thrown into the ditch and only by great good luck was a serious accident averted. Some day the city may have a fine bill of damages to pay by reason of an accident in that vicinity.

Attention is also directed to the rock which juts out from the side of the road at the foot of the hill going up to the city limits. This rock hides the view of the street, one half of which is taken up by the electric railway track. In these days of motor cars there is great danger of collisions here, or if not collisions, of horses becoming frightened by having a motor come quickly upon them. If this should happen when a car was on the track, the horse, if skittish, might do a great deal of damage. The rock should be blasted away.

#### A GRATIFYING CHANGE

The announcement that the mining companies operating at Rossland have voluntarily increased the wages of the men employed is a most noteworthy incident, demonstrating most eloquently the great change which has come over affairs in this province in a few years. It seems only yesterday that conditions in British Columbia were most unsatisfactory. Political turmoil prevailed, capital had lost confidence in the country to a considerable degree, labor troubles were frequent, and, generally, things were in a bad way. Few will be inclined to dispute that those who were in any way responsible for the elimination of those unsatisfactory conditions and the ushering in of better times are entitled to a considerable amount of credit. Our Liberal friends are constantly proclaiming that the great prosperity prevailing in Canada is due to the circumstance that a Liberal government is in office at Ottawa. By an application of the same rules of logic which enables them to arrive at that opinion,

they can hardly escape admitting that the McBride government has brought about prosperity in this province and is in every way responsible for it. But we are not so foolish as to ask them to do any such thing. We are content to have the McBride government given credit for what it did accomplish and for no more. It can be demonstrated that the credit for the dissipation of the causes which destroyed public confidence in this province as a field for investment lies with the McBride government. When it assumed the reins of office, every phase of the situation confronting it was pregnant with difficulties of a character calculated to alarm the wisest and most determined statesmen. The treasury was empty, industry was at a standstill, capital had turned its attention to other fields, and stagnation prevailed. How the situation was grappled with boldly and successfully is an old story which it is unnecessary to repeat at this time; but it ought not to be forgotten that a very serious dilemma was overcome by the policy inaugurated by Hon. Richard McBride and his colleagues. We are most of us disposed at times of prosperity to forget the troubles of the past and the friends who stood by us in times of need. We can with much profit on occasion turn a backward glance along the thorny road we have travelled. Outside altogether of the acts of the government there were causes contributing to the ushering in of an era of prosperity in this province; and there is no disposition on the part of Conservatives to close their eyes to that fact. But it is idle to suppose that a better order of things would have prevailed had not public credit been restored and an assurance given capital that it could depend upon stable political conditions continuing for a long period. This the McBride government brought about and to that extent it is deserving of that measure of commendation which is so ungrudgingly accorded it by the great bulk of the people of British Columbia.

#### JAPAN'S SUCCESS.

At this time, when we have a prince of the royal family of Japan with us, it may not be amiss to consider what may be the secret of that nation's wonderful progress. It can be expressed in one word, "Education," and the authority for that statement is no less a personage than Marquis Ito, who perhaps more than any other man contributed to the inauguration of the movement, the result of which is amazing the world today. The Japanese were just as courageous, just as industrious, just as indifferent to death, just as loyal to their sovereign thirty years ago as they are today. But they were not so well educated in those things which make for national progress. A generation ago some wise statesmen and a wise monarch saw that the time had come when Japan had to arouse herself from the apathy of centuries, and the first requisite for that purpose was the education of the people. There is nothing more astonishing in all history in the way in which this was accomplished. It was first necessary to inspire the people with confidence. This was done by the abolition of the feudal system. It took England three centuries to get rid of that form of social organization. Germany began the process centuries ago and has not freed herself from it yet. Japan accomplished the reform in three years, and without the drawing of a sword. It was a remarkable thing. Then the nation began to go to school. It studied everything from cotton-spinning to Christianity. It studied the art of war, and also the art of taking care of those who suffered from the effects of war. It studied the arts of peace. What a Japanese could not learn satisfactorily at school, he was content to learn in some one's kitchen. Knowledge was what he wanted. He had been told that knowledge would rejuvenate his nation, and he set out to acquire knowledge. Just as when he was told that the honor of his country required him to face certain death on the battlefield he went forward and died, so having been told that his country would become great in proportion as its people became educated, he went out and got an education.

The people of America affect a feeling of superiority over the Japanese. European people do not; but with all the vastness of America and the immensity of the material problems with which we have to deal, we are in some things very provincial, and one of them is the notion that, in some mysterious manner, white people are the superiors of all other people. It seems very difficult for us to get over this feeling in respect to the Japanese. It is not as pronounced in Canada as in the United States, but it is found in both countries. We do not claim to be more honest, more enterprising, more plucky, more anything else, but we think ourselves the superior race. Perhaps we are, but that remains to be proved. Meanwhile we might with advantage take a leaf out of the book of Japan. Knowledge has been shown to be a power in that country; it may be even a greater power in our country. We have great problems to deal with, problems different in kind, but no less difficult than those with which Japan has been dealing. We need the kind of knowledge which will enable us to solve those problems. Some of them may be mentioned. There is the problem presented by the feudalism of wealth, that arising out of the tyranny of organized labor, that arising from the prevalence of intemperance, that

arising from a low standard of public morality. We cannot get rid of these problems by shutting our eyes to them. They are growing more and more serious every day. They are fast uniting us for competition with the awakening people of the Orient.

#### HER MAJESTY THE ROSE

As the rain falls equally upon the just and unjust, so does the rose, Queen of Flowers, bloom and send forth its fragrance regardless of whether or no that mead of appreciative recognition of her sweetness which is her due be forthcoming. But are we not as a community neglectful of a duty in this regard? Should there not be some occasion fixed when a universal tribute would be paid to recognition of the prodigality Nature displays in bestowing upon Beautiful Victoria a wealth of floral growth unequalled perhaps in any other city on the face of the globe? In a very vague and misty fashion we have an idea how some such sort of tribute could be conveyed—if such an expression is justifiable when dealing with a thing other than human. We are so blessed by Nature in respect to abundance, that in the eternal fitness of things due homage, born of a spirit of thankfulness and appreciation, should be expressed in some concrete form. An imaginative picture of what might occur presents itself: On a set day each year Victoria gives itself over to the pleasing task of worshipping at the shrine of Her Majesty the Rose. Our homes, our business premises, every place where men do congregate, breathe the perfume of the rose. A parade is held. Children clad in white, wearing wreaths of roses, are at the head of the procession, and a line of vehicles following are similarly decorated. The city churches on the Sunday are filled with the scent of the roses which, in lavish abundance, are used with charming and picturesque effect to adorn the houses of worship. Special sermons, dealing with the Lesson of the Flowers, are preached, and the occasion made one of general rejoicing at the beneficent wisdom of God in giving His people so exquisite a reminder of the Omnipotence of the Power which creates all things to His own ends. The thought is one quite outside of and beyond those things which engage the attention of most of us employed in the busy marts of men, but some lines by William Wordsworth seem to express quite adequately what we would like to convey.

The world is too much with us, late and soon,  
Getting and spending we lay waste our powers;  
Little we see in nature that is ours;  
We have given our hearts away, a sordid boon!  
This sea that bares her bosom to the moon;  
The winds that will be howling at all hours;  
And up-gathered now like sleeping flowers;  
For this, for everything, we are out of tune;  
It moves us not. Great God! I'd rather be  
A Pagan suckled in a creed outworn;  
So might I, standing on this pleasant lea,  
Have glimpses that would make me less forlorn;  
Have sight of Proteus rising from the sea;  
Or hear old Triton blow his wreathed horn.

Let us strive to get in tune with Nature. Let us once a year, for one brief day, throw off the cares which beset us and pay homage to Her Majesty the Rose.

If we had only some of the water that ran out to sea last winter.

The riots in Portugal are said to be engineered from Madrid. The alleged cause of them is the suspension of the functions of the legislative body and the government of the country by decree issued by the premier.

To all motorists: Use your horns more frequently, especially when on country roads. There are many turns in such roads around which motors are driven often very rapidly without a warning sound. This practice is dangerous, and it is inexcusable.

We may remind the Times that it is not very good form to refer to the subjects of our ally the Emperor of Japan as "Japs." This expression is one that is very commonly used, but might very well be dropped.

Mr. R. G. Macpherson, M. P., wears a look of surprise when any one suggests that he is about to seek the seclusion that the post office grants. There are some people in Vancouver who say the genial member for that city is simply talking for talk's sake, and that it is a clear case of noli me episcopari.

Private letters from eastern Canada say that the weather continues very cool for the present time of year. On the prairies conditions seem highly favorable for a bumper crop. In the vicinity of Victoria the exceptionally dry spring has made crops short, but probably the higher prices will counterbalance this as far as the farmers are concerned.

By the death of Mr. John Robert Gliscombe, Victoria has lost one of her most worthy citizens. Mr. Gliscombe was a pioneer. He has seen the city grow from a village to what it is today, and in every relation in life he has shown himself worthy of honor and respect. He took a very great interest in politics, having been nearly all his life closely identified with the Liberal party.

The views expressed by the Colonist as to the necessity of a new departure in municipal affairs have called forth considerable favorable comment. It would not be correct to say that there has been any adverse criticism of the present Mayor and Aldermen, but only a very general opinion that it is time for Victoria to bring new men to the

front. We have every reason to believe that many prominent business men could be persuaded to enter the municipal arena if they could be led to see that the public would welcome their appearance in it.

It may be regarded as a pleasing sign of the times, one which portends an increased amount of interest in this province on the part of the people of Eastern Canada, that the educational branch of the Ontario government has arranged to secure a comprehensive exhibit of the ores of British Columbia. The incident is doubly welcome in that it implies not only another opportunity to attract the attention of capitalists, but that the time has passed when those who pretend to knowledge of Canada can afford to neglect giving due consideration to the resources of this great province.

One of the incidents to be noted in connection with the arrival of Prince Fushimi was the fact that one of the largest crowds which ever collected in Victoria behaved with orderliness. Of course, Victoria crowds are notoriously well-behaved, but it is doubtful if one could find in any other city on a similar occasion so remarkable a demonstration as that of Sunday afternoon. In the sense that each individual composing the vast assemblage seemed imbued with a wish to act most decorously. This may be considered by some a small matter, but we do not quite regard it in that way, but rather in the light of being not the least admirable feature of life in a city possessing much of which it may boast.

#### SPIRIT OF THE PRESS

##### The Angel.

After lasting thirty-seven days the New York longshoremen's strike has ended by the most successful vote of the best terms obtainable. This means that their pay will be at the old rate. The much abused employer is generally the party who does not seek to understand the situation which after a long struggle he finds his feet in the victor's boots.—Montreal Gazette.

##### The Car Supply.

According to the statistics of manufactured products in Canada issued from Ottawa yesterday, in the five-year period ending 1906 the manufacture of railway cars increased from \$3,561,172 to \$14,430,000 or by about four times. The figures are a fairly satisfactory answer to the assertion that the railway companies are not doing enough to meet the increased demand for their products. The fact that it takes itself in five years can hardly be condemned for not growing fast enough.—Montreal Gazette.

##### The Premier's Success.

The report of the success of Premier McBride's mission to London as contained in the press dispatches, which reached the people of this Province through the daily papers of last Saturday and which we read with interest and satisfaction, must have been highly gratifying to every loyal citizen of British Columbia. It is pleasing to notice that the press of the Province, which in our present issue refers to the premier's achievement in complimentary terms. Even those papers which less than three months ago saw so much humor in the Premier's case, and which in the meantime have been so kind as to change their tone, are now in line with the prevailing public sentiment. We have no disposition to be unkind or unfair, but the failure of some of the Liberal organs are making to swing into line and claim for their party a show of credit. It will take a little more than soft talk, however, to make the people soon forget the opposition which was offered to the premier's course from the beginning. It is true that the opposition voted practically against the government on the main issue, but beyond this it can scarcely be claimed with justice that the influence of the party throughout the Province was with the premier. Moreover, it is the acme of absurdity to say that Sir Wilfrid Laurier and his companions in office at Ottawa have not been responsible for the Premier's success. To say what was sought, Mr. Churchill's words in the Imperial parliament set this point at rest. "The prime minister of Quebec, Sir Wilfrid Laurier, and Hon. Mr. Fielding, have made personal application to the colonial secretary." In the light of the facts it seems only fair to regard Mr. McBride's achievement as at once a personal, of party and a provincial victory.—Fraser Advance.

##### Dr. Grenfell's Work.

Four Harvard students have decided to go to Labrador this summer to assist Dr. Grenfell in his hospital and industrial work in that region. They are expected to leave Boston this week in a gasoline launch presented to Dr. Grenfell by the Dutch Reformed church of New York, and which will be used to supplement the coast work now done by the steam yacht Strathcona.

The record of last year's work is thus tersely and modestly summed up by Dr. Grenfell himself:

"As in former seasons, the Strathcona has visited White Bay, Goosefountain, both sides of the Straits of Belle Isle, and the Labrador coast nearly to Cape Chidley. Help has been afforded to the needy, relief, since to those who have fallen by the way, and by precept and practice the gospel of God's grace has been declared from one end of the shore to the other. Mr. Bryant, a medical student of Harvard University, accompanied Dr. Grenfell, and devoted his holiday to assisting him in the press of work that awaits the Strathcona in every harbor she visits."

Dr. Grenfell is now, or was very recently, in England, and "Canada," in its report of an interview with him, says: "Dr. Grenfell told a representative of 'Canada' that he had done the most something like 30,000 fishermen during the summer months, in addition to supervising the work at four hospitals erected at different points on the coast. The doctor, with his assistants, men and women nurses, last year had under his care 214 inpatients and 2,320 outpatients. The staff performed seventy-eight operations under ether, and only lost eight patients by death."

What this noble and devoted service means to the inhabitants of that bleak and forbidding coast, and how it has helped, although those who heard Dr. Grenfell speak in this city a few years ago are fairly well informed regarding the hardships and perils of the far north.

In his statement to "Canada," Dr. Grenfell declares that some day, when the Dominion is less busy in developing the West, the lumber, iron and other minerals, fish, fur, water powers and other resources of Labrador will receive attention, and he anticipates that some day a railway will be extended to Battle Harbor, at the entrance to the Straits of Belle Isle, with a three days' ocean voyage from the west coast of Ireland. His closing remark to the London Journal is characteristic: "I have just returned from a tour of four in the Riviera, but I would not care to live there. It is the climate of the north that makes the men, and that is the reason why I believe in the future of the world will have such a fine race of men to show as Canada in the future."

The same views, in almost the same words, were expressed in St. John, a long ago by Dr. Parkin, and Ralph Connor's plea was that a country with such great resources as Canada should also produce the best men.—St. John Telegraph.

## NEW LACE CURTAINS

WE have just unpacked a very large shipment of Nottingham Curtains, a shipment we had rushed through. Owing to unprecedented heavy selling in these lines this spring we sold completely out of these Curtains, and had the manufacturers rush us a shipment which has just arrived.

These are the same superior goods as the former shipment and we are still offering the same good values on these and all other lines in this department. We have twenty different patterns, in Ivory and White, in the Nottingham line—every one exceptionally attractive, showing great care in selection.

Prices range from, per pair \$6.50 to ..... 90c

## OTHER CURTAINS AND CURTAIN MATERIALS

These goods represent the very latest in their respective lines, and though superior in quality to the usual sorts, we have priced them at popular prices and invite your attention.

CREAM RUGS, 18x54 in., each ..... \$8.00

CREAM RUGS, 20x58 in., each \$10.00

CREAM RUGS, 21x64 in., each \$12.00

## The Glass Cutter's New Creations

There seems to be no limit to the genius of the American glass cutter. He devises new cuttings of intricate pattern readily, executes them with a precision and accuracy of detail that is truly wonderful, and finishes them as no other craftsman on earth.

This season's contributions to the galaxy of splendor and magnificence are in advance of everything done before.

You're invited to inspect them.

## In Fine Office Furniture and Furnishings

We show the finest Desks, Chairs, Cabinets and other Office Fittings, including Floor and Wall Coverings and Decorations. We also have the cheapest that are dependable in workmanship and materials. "Weiler Quality" in Office Fittings assures the same standard of excellence and absence of excessive charge, as the almost fifty years of our business existence have demonstrated to be characteristic of our Furniture for the Home.

## Uncommon Bits that Ornament When not in Use

The new importations disclose many quaintly formed useful things, which properly belong, when not in service, on the running shelf or side table in the dining room.

Ideal for ornamenting the dining room of the country house.

The Jugs from the famous Doulton and Wedgwood factories with underglaze decorations in odd and unusual colorings are among the finest examples of this character.

A look among these things is a refreshing experience.

You're invited.

**MUSIC AND DRAMA**  
The New Grand.  
All the good things promised in the advance entries were verified in the performance at the New Grand last night. The big act of James F. Dolan and Ida Lenhart, which has been advertised so extensively for the last two weeks proved fully up to expectations, and the other numbers are all extra good, so that another big week is assured. The sketch by Dolan and Lenhart is entitled "The Hightoned Burglar." It is entirely original and without doubt the best of such play-lets that has been seen here, both of the principals being performers of the first rank and the stage setting better than seen in most sketches. Gavin, Platt and Peaches (peaches being the dog) present one of the prettiest little singing comedy sketches imaginable, in a most picturesque stage scene, entitled "The Stolen Kid"; the Tanakas, Japanese magicians and top spinners, have a strong act full of novelties in their line; Ian Roby, black-face comedian, has also a good act of monologue and song, even if some of it does sound familiar and his imitation of a trombone is very good. Geo. O. Keane, singing the illustrated song, "Somebody's Waiting For You," and a good set of moving pictures closes the show.  
Very fashionable to take a trip on the steamer Inouls among the thousand islands of the Gulf. A delightful outing, beautiful scenery and ozone laden breezes. Next Sunday a stop will be made at Crofton.

**Will Be Adjourned.**  
The civil sittings of the Supreme court of British Columbia at Victoria set for July 2nd, will be adjourned until July 9th.  
**RIGHT BREATHING CURES CATARRH**  
The only natural and common sense method known for the cure of catarrhal troubles is Hy-o-mel. It is breathed through an ingenious pocket inhaler, so that its medicated air reaches the most remote air cells of the nose, throat and lungs, killing all catarrhal germs, soothing the irritated mucous membrane, and restoring a healthy condition.  
Hy-o-mel goes right to the spot, where the catarrhal germs are present in the nose, throat and lungs and destroys the germs so that perfect health is soon restored.  
A complete Hy-o-mel outfit with inhaler costs but \$1.00 and is sold by D. E. Campbell under guarantee to refund the money unless the remedy gives satisfaction.  
**Logs and Boats Adrift.**  
A boom of logs at Lee's mill, above point Ellice bridge was cut open by some mischievous persons about 6 o'clock on Sunday morning, and the police are now trying to locate the people responsible for the damage. A launch and a couple of small boats were moored to the boom, and these, and the logs that were loosened, were carried some distance by the tide before they were recovered.

**WEDDING ANNOUNCEMENT**  
Zavitz—Douglas  
A pretty wedding took place on June 19, at St. Andrew's Presbyterian church, Vancouver, when the pastor, Rev. R. J. Wilson, united in marriage Richard H. Zavitz, formerly of Vancouver, B. C., but now residing in Winnipeg, Man., and Miss Ethel Douglas, daughter of the late Benjamin Douglas, of New Westminster, B. C.  
Promptly at 4 p. m., the bride entered the church, to the strains of Mendelssohn's wedding march, leaning upon the arm of her cousin, T. A. Muir, of New Westminster. She was charmingly gowned in a traveling suit of grey with white vest embroidered in gold, wearing a white mushroom hat of silken straw and tulle with a crown of white violets edged with a wreath of roses. She carried a beautiful shower bouquet of brides roses and wore a handsome diamond brooch as well as a gold bracelet, gifts of the groom.  
The bride's only attendant was Miss Audrey Lewis, who was prettily dressed in white and made a charming little flower girl, carrying a basket of beautiful pink roses and wearing a pretty pearl pin, the gift of the bride. The groom was supported by E. M. Breed, of Vancouver, who received as a present a diamond and sapphire stick pin.  
Immediately after the ceremony the bridal couple proceeded to the C. P. R. depot and left on the 5 p. m. eastbound train to spend the early part of their honeymoon at Glacier, Field, Banff and New Denver, after which they will leave for Winnipeg where they will in future reside, the groom being the western manager of sales for the Allis Chalmers Bullock interests with headquarters in that city.  
The bride was the recipient of many beautiful gifts, she being well and favorably known throughout Vancouver and New Westminster, B. C.  
**Anglican Synod.**  
A meeting of the executive committee of the Anglican synod will be held this afternoon at the synod office, Fort street, at 3 p. m.  
**In Aid of Orphanage**  
Tomorrow a splendid opportunity will be afforded to all those who are desirous of extending a helping hand towards the support of the Protestant orphanage, at the annual pound party, to be held in aid of the home, when contributions of cash or good linen, large or small, will be most thankfully received. Professor Longfield has kindly offered to brighten the afternoon entertainment with a choice selection of music and the ladies' committee will dispense the ever refreshing cup of afternoon tea.

**SAILORS DISAPPEAR FROM THE MONMOUTH**  
Twelve Desertions Reported Since the Warship Arrived in Port  
The city police were busy last night looking for deserters from H. M. S. Monmouth, which is due to sail from Esquimalt this morning. Prince Pashim aboard for Yokohama.  
Twelve desertions were reported, and it is believed that most of the unfaithful sailors are by this time safely across the international boundary line.  
Early yesterday morning two men dropped overboard and swam ashore. The others were men who wore good conduct badges and had been enjoying shore leave.  
It is said that the cause of the desertions is the reports the men have heard of good times on the Pacific coast, and the opportunities for earning high wages at almost any kind of work.  
A number of sailors were allowed ashore, within the navy yard last night, for the purpose of attending a dance in a sail loft, and to prevent further disappearances the place of amusement was closely guarded while the pleasure was in progress.  
One and a quarter.—One dollar and a quarter will buy you or anyone else one of our screen doors suitable for back door. Front doors \$1.60, \$1.75, \$2.25, and \$2.50. A great variety in all sizes to choose from. Screen windows 25c. up. Wire screening 25c. per yard and up. R. A. Brown & Co., 80 Douglas St.

**FIFTH REGIMENT TO BREAK CAMP TONIGHT**  
Annual Drill Season Will Conclude Tonight With Firing Exercise  
Tonight the annual camp of the Fifth Regiment will come to an end. The annual firing tests will be held this evening, after which the regiment will strike tents and parade back to the city.  
Last evening the regiment was kept fully employed. No. 1 company held its annual firing, and some splendid results were achieved. No. 2 and 3 companies practiced standing gun drill in the fort.  
Sunday the regiment held a drum head church service in the morning, which was attended by many spectators from the city. At noon the annual muster parade was held, when the full strength of the regiment was massed. In the afternoon the regiment furnished a guard of honor consisting of 120 selected men for His Imperial Highness Prince Pushim. The regiment will furnish another guard for the prince this morning.  
The regiment orders for today contain the following:  
No. 2 and 3 companies will form up on their company parade ground this evening at 6.30 p. m. for the purpose of carrying on their annual firing. The company reporting complete first to the O. C. will go into the fort.  
At the completion of the practice this evening the regiment will strike camp and march to drill hall.  
No leave will be granted for this evening.  
Officers commanding companies will assign four men under the company quarter-master-sergeant for the purpose of collecting the blankets and rubber sheets, and return them to the regimental quartermaster at 8 p. m.  
A parade of the regiment is called at 10 o'clock this morning at camp Macaulay to form a guard of honor for Prince Pushim.

**DOCTOR SUTHERLAND BAPTISES CONVERTS**  
Interesting Ceremony at Methodist Mission in This City Last Night  
An address on the progress of Methodist mission work in China and Japan was delivered last evening in the Chinatown mission house by Rev. Dr. Sutherland, general secretary of missions of the Methodist church of Canada, who returned yesterday from a visit to the Orient, where he inspected the work being done by the missionaries of his denomination.  
Dr. Sutherland said that in the province of Sz Chuan, in the western part of China, where Methodist influence is most felt, there is a demand for more workers. Last year there were fourteen missionaries in this province, and now twelve more are wanted, while it is estimated that more than one hundred will be required within the next five years. During the past five years there had been great changes, and more results had been realized than in all of two thousand years previously. The missionary societies were endeavoring to keep pace with these changes, and their work was rapidly growing. In Chentu, the capital of Sz Chuan, the missionary society was building a hospital that would cost \$25,000, and was co-operating with other denominations for the purpose of securing the erection of a college for the education of Chinese.  
Dr. Sutherland also gave good report of the work in Japan, and said that a general conference of Methodist churches in that country was being formed.  
On the platform with Dr. Sutherland were Rev. G. K. R. Adams, Rev. James Turner, superintendent of Chinese missions, and Chan Yu Tan, the city missionary.  
At the conclusion of the service a number of converts to the Christian religion were baptised by Dr. Sutherland, who was assisted by Solomon Chan, acting as interpreter.

Got Away in the Night With  
Parcels of Japanese Fancy  
Goods

Some time between Saturday mid-  
night and early Sunday morning  
thieves entered the Japanese fancy  
goods store of J. M. Nagano & Co., in  
the Balmoral block, Douglas street,  
and carried away a large quantity of  
goods.

The transom in the rear of the  
building had been left unfastened, and  
through this an entrance was effected  
without resort to lock breaking.  
Two large flasks, that had been hung  
in front of the store as part of the  
decorations in honor of the visit of  
Prince Fushimi, enabled the robbers to  
select what they wanted without the  
chance of being seen at their work.  
They took away with them five  
bundles of silk, containing fifty yards  
each, several pairs of pajamas, some  
night dresses and other articles of  
wear.

The city police have been furnished  
with a description of the stolen goods  
and are on a hunt for the thieves.  
Chinese are suspected of having com-  
mitted the robbery.

Something that is appreciated by  
many Victorians and yet unknown to  
a few is the direct representations of the  
toilet preparations of Dr. Cristion, of  
Paris, the celebrated Court Dermatol-  
ogist of Europe, as with all his pre-  
parations they contain no dyes or  
harmful ingredients, nothing but that  
which will help nature in a natural  
way. Gray Hair Elixir stops the hair  
falling out, giving it new life, also re-  
turns gray hair to its natural color,  
contains no dye or oil. Ladies and  
gentlemen calling will receive full in-  
formation of all Dr. Cristion's French  
Toilet Articles, and a booklet of his  
valuable recipes free. Mail orders  
given special attention. Mrs. E. K.  
Winch, 129 Cormorant St., hours 11  
a.m. to 8 p.m.

## ANNUAL ROSE SHOW TAKES PLACE FRIDAY

Arrangements Have Been Com-  
pleted—Chance to Secure  
Names of Roses

The second annual rose show of  
the Victoria Horticultural society  
will be held in the assembly rooms,  
Fort street, on Friday next. The  
various committees in charge of the  
arrangements are working hard to  
make the show a success, and a gen-  
eral request is made to all to assist  
them as much as possible. The  
judges for the show have been ap-  
pointed, as has also the committee on  
naming roses; so if there should be  
anyone who has roses the names of  
which they would like to know, a  
good opportunity is afforded of hav-  
ing them named. Arrangements have  
been made to supply music on the  
evening of the show, Miss Thain's  
orchestra having been engaged for  
the occasion. The decorating of the  
hall, which is in charge of Mrs. Bur-  
ton, will be commenced tomorrow  
morning, and promises to be very at-  
tractive. It very often happens that  
on the day of the show many roses  
come into bloom that a few days be-  
fore were only in bud, and in order  
that everyone should have an op-  
portunity of exhibiting the directors  
have decided to receive entries up to  
the morning of the show. All entries  
should be made to the secretary,  
James A. Bland, 115 Toronto street.  
Persons desirous of purchasing tickets  
of admission may obtain same from  
Messrs Hibben & Co., Messrs Chal-  
lenger & Mitchell or from any member of  
the committee.

The following is the prize list:

Class A—Professionals

Hybrid perpetuals, 9 var., 1 bloom  
each, named, shown singly.  
Hybrid teas, 6 var., 1 bloom each,  
named, shown singly.

Teas, 6 var., 1 bloom each, named,  
shown singly.

Best decorative exhibit of roses.

Hybrid perpetual, red, 3 blooms, 1  
var., named.

Hybrid perpetual, white, 3 blooms,  
1 var., named.

Hybrid perpetual, pink, 3 blooms, 1  
var., named.

Hybrid perpetual, dark, 3 blooms, 1  
var., named.

Hybrid Tea, red, 3 blooms, 1 var.,  
named.

Hybrid Tea, white, 3 blooms, 1 var.,  
named.

Hybrid Tea, dark pink, 3 blooms, 1  
var., named.

Hybrid Tea, salmon, 3 blooms 1 var.,  
named.

Hybrid Tea, flesh, 3 blooms, 1 var.,  
named.

Tea, white, 3 blooms, 1 var., named.

Tea, pink, 3 blooms, 1 var., named.

Tea, yellow, 3 blooms, 1 var., named.

Tea, yellow, 3 blooms, 1 var., named.

Tea, copper, 3 blooms, 1 var., named.

Best exhibit of climbing roses.

Class B—Amateurs

Collection of roses, 12 var., 1 bloom  
each, shown singly, named.

Hybrid perpetuals, 6 var., 1 bloom  
each, named, shown singly.

Hybrid Teas, 6 var., 1 bloom each,  
named, shown singly.

Teas, 6 var., 1 bloom each, named,  
shown singly.

Best decorative exhibit of roses.

Best vase or bowl of roses, own fo-  
liage.

Gladioli de Dijon, 3 blooms.

Papa Gentler, 3 blooms.

General Jacquemont, 3 blooms.

La France, 3 blooms.

Caroline Testout, 3 blooms.

Frau Karl Druschke, 3 blooms.

Manan Teet, 3 blooms.

White Manan cochet, 3 blooms.

Ulrich Brunner, 3 blooms.

Souvenir de Pierre Nottling, 3  
blooms.

Hybrid Perpetual, red, 3 blooms, 1  
var., named.

Hybrid perpetual, white, 3 blooms, 1  
var., named.

Hybrid perpetual, pink, 3 blooms, 1  
var., named.

Hybrid perpetual, dark, 3 blooms, 1  
var., named.

Hybrid Tea, dark pink, 3 blooms, 1  
var., named.

Hybrid Tea, white, 3 blooms, 1 var.,  
named.

Hybrid Tea, salmon, 3 blooms, 1 var.,  
named.

Hybrid Tea, flesh, 3 blooms, 1 var.,  
named.

Tea, white, 3 blooms, 1 var., named.

Tea, dark pink, 3 blooms, 1 var.,  
named.

Tea, yellow, 3 blooms, 1 var., named.

Tea, flesh, 3 blooms, 1 var., named.

Tea, copper, 3 blooms, 1 var., named.

Best bloom in show (Amateurs). Silver  
medal, V.H.S.

The roses should be exhibited with  
as long stems as possible (other  
things being equal length of stem  
will count), and when neither in the  
bud state nor overblown.

All exhibits (except where other-  
wise mentioned) should be shown in  
vases.

## Alone in His Troubles.

There was less than the usual num-  
ber of Monday morning prisoners in  
the police court, yesterday. Thomas  
Lewis, an old offender against the law  
for the preservation of order on the  
streets, was alone in his troubles. He  
admitted that he had caused a dis-  
turbance by being drunk, and was  
fined \$8.50 with the alternative of fif-  
teen days in jail.

## PERSONAL MENTION

Wm. Pennock returned Sunday  
morning from a three months' trip  
through the Eastern provinces and  
Eastern and Southern states, where he  
visited the leading jewelry manufac-  
turers.

Dr. R. H. Carter, who spent the first  
nine months in various American med-  
ical institutions adding to his profes-  
sional knowledge has left for Europe  
to further prosecute his studies there.  
He will return to Victoria in two or  
three months to resume his practice.

George S. May, M. P. E. of Ottawa,  
is in Victoria on a business trip and is  
registered at the Driford. He will be  
here until Wednesday.

J. W. Hodson, formerly Dominion  
live stock commissioner and now in the  
real estate business is registered at  
the Driford.

R. M. Palmer, chief of the provincial  
bureau of inspection, left yesterday  
for the mainland.

R. G. Macpherson, M. P. for Van-  
couver, accompanied by Mrs. Mac-  
pherson and three children, is in this  
city on a pleasure trip. They are re-  
gistered at the Driford.

Use telephone to Ladysmith.

## SPACE IS RESERVED FOR FRUIT EXHIBIT

Things Are Well in Hand For  
Display At Eastern  
Fairs

Twenty-four feet of space has been  
reserved at the exhibition in Winni-  
peg, Brandon and Regina for the fruit  
and flower display from Victoria and  
district. The exhibitions will extend  
from July 13, when the Winnipeg one  
opens to the latter part of August. The  
preparation of the exhibit is one of the  
hardest problems this year owing to  
the dryness of the season. The fact  
that the first of the exhibitions opens  
two weeks earlier than usual is also  
a detriment. All that can be shown  
are the early varieties. At the same  
time with the flowers, shrubs and  
bulbs the exhibit should attract as  
much attention to this district as that  
prepared by the B. C. Fruit Growers'  
association did to the province.

Of the small fruit prepared in bot-  
tles, there has been quite a collection  
made. Over seventy jars have been put  
up, some of them standing over two  
feet in height. The fruit is of the  
finest character possible and is all  
grown in the immediate vicinity of this  
city.

Some of these jars will be on exhibi-  
tion at the Tourist Association rooms  
after tomorrow.

A thorough canvass of the orchards  
has been made and the promise se-  
cured of specimens of all fruit now  
growing.

People are not taking as much in-  
terest in the financial end of the affair  
as the committee would wish. While  
some few contributions have been re-  
ceived, very few have spontaneously  
come forward as has been done in  
other places.

The committee will find it difficult,  
hampered by the lack of money, to pre-  
pare an exhibit which will excel those  
from other places where the public  
show a greater disposition to aid. As  
an example of what competition will be  
encountered, a member of the com-  
mittee instanced Nelson, B. C. At a  
recent meeting at the board of trade,  
it was stated that the local real  
estate agents had subscribed about  
\$1,000 for an exhibit. All the business  
men were joining in the enterprise and  
the committee would have lots of  
funds with which to prepare a splen-  
did exhibit of the resources of West  
Kootenay.

As the local tourist association is  
bearing nearly \$700 of the cost of the  
exhibit the demand upon the local pub-  
lic is not so great as it is in other  
places where subscriptions are necessary.

People who have fruit in private gar-  
dens and orchards are requested to  
leave specimens at the tourist associa-  
tion rooms between now and Wednes-  
day of next week.

Thirty large pictures of scenes  
around Victoria which will accompany  
exhibit have been ordered by the tour-  
ist association.

## Among the Gulf Islands

On Sunday a large number went out  
among the thousand islands of the  
gulf by the V. & S. railway and the  
steamer Iroquois. After leaving Mayne  
a course was taken to the east of the  
island returning through the Iroquois  
channel. This it may be noted, is  
the only passenger boat to pass  
through these picturesque and scenic  
passages; the wonderful formation of  
which with its small islands dotting  
the surface of the placid bays and  
various passages inspires one with  
only feelings of admiration and plea-  
sure. Next Sunday a stop will be made  
at the Crofton smelter giving passen-  
gers an opportunity to view this great  
industry.

## Musical Recital.

A recital was held at Seaview, Dal-  
las road, on Saturday, June 22nd, by  
some of Miss S. F. Smith's pupils. Fol-  
lowing are the names: Master Ber-  
nard Smith, Uly Terry, Ivan Hawke-  
s and Harry Yates, and Misses Jessie  
Dorman, Irene Dore, Dorothy Gardiner,  
Emma Butler, Dorothy Harris, Ince  
Terry, Pori Warren, Florence Miles,  
Vera Dorman, Adelaide Finlayson,  
Violet Warren, Zelma Greer, Ethel  
Waxstock, Alice Robelee, Mabel Booz,  
Mabel Irvine, Cecelia Green, Alice  
Muriel, Lillian Haggerty, Alice Mar-  
boeuf, Mildred Sweet, Marie George,  
Mrs. Garret Smith, Miss S. F. Smith,  
and Charlie Finlayson. Refreshments  
were served on the lawn.

## PAROLE OFFICER WILL MEET CANADIAN CLUB

Will Speak At Luncheon On Mod-  
ern Treatment of the  
Criminal

The Canadian Club of Victoria will  
hold its fifth luncheon on Thursday  
of this week at 1 p.m., when W. P.  
Archibald, Dominion parole officer  
will be the guest, and will speak on  
the question of "Modern Treatment of  
the Criminal."

Mr. Archibald has addressed Cana-  
dian clubs on eastern cities on this  
same subject, and according to press  
reports he has on every occasion  
aroused much interest in a work little  
understood by the general public.

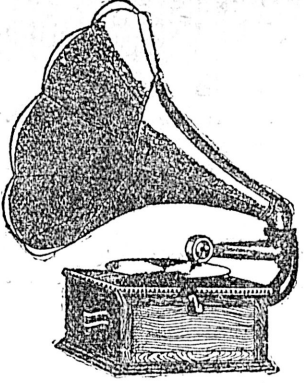

He is an interesting talker, and  
has made a thorough study of his  
subject.

The luncheon will be given in the  
Poodle Dog restaurant, and members  
are requested to procure their tickets  
today or Wednesday, at Hibben's book  
store on Government street.

## Meets This Afternoon.

The annual meeting of the Woman's  
Auxiliary Society, Provincial Royal  
Jubilee hospital, takes place today at  
the board of trade rooms, Bastion  
square, promptly at 2.30 p. m. All  
members, donors or friends of the so-  
ciety are most cordially invited to at-  
tend. Notices have been mailed to all  
old members, but inasmuch as this  
year's returns have only just come in,  
it has been found impossible to secure  
names to new members. All new mem-  
bers are, therefore, asked through the  
medium of the press to attend the  
meeting and to thus identify them-  
selves early with the work and inter-  
ests of the society which will so glad-  
ly welcome them.

Use telephone to Ladysmith.

## THE BEST \$30.00 TALKING MACHINE

or Summer Home

## FLETCHER BROS.

Exclusive Dealers in  
Columbia Graphophones

Johnson Judgment.  
Judgment on the case of the city  
vs. E. M. Johnson, which was con-  
cluded in the police court three weeks  
ago after a trial that was continued  
over a month, is expected to be deliv-  
ered by Magistrate Hall this morning.

Carnival Receipts  
The members of the Auxiliary Anti-  
Tuberculosis Society beg to acknow-  
ledge with thanks the sum of \$31.00  
from the British Columbia Electric  
Street Railway, per Albert T. Goward,  
which donation brings the proceeds  
of the carnival given on June 15 last,  
from \$409 to \$440.

## MORE ATTRACTIONS FOR THE GORGE PARK

Several Sideshows Have Been  
Added Within the Past  
Few Days

Within the next few weeks the  
Gorge park will resemble Coney Island  
on a small scale, and it is expected  
that the popularity of this favorite re-  
sort will be largely increased. The  
British Columbia Electric Railway  
Company is exerting every effort to  
popularize the pretty outing place.  
During the last few days several small  
sideshows have commenced operations,  
and are attracting considerable patron-  
age. Among those which have started  
business is one where a person may  
test his skill as a baseball thrower  
with a man's head for the target. An-  
other innovation is a photograph gal-  
lery worked by electricity. Only five  
cities in Canada can boast of one of  
these galleries, and Victoria is includ-  
ed in the list, the others being Mon-  
tréal, Toronto, Winnipeg and Van-  
couver. At this gallery a photograph  
is made and put on a souvenir post  
card in fifteen minutes.

The bioscope pictures are also doing  
their share to attract the people. Dur-  
ing the past week the pictures have  
been very entertaining. For the pre-  
sent week the management has secured  
some of the latest films on the circuit.  
The subjects for the week are "Mrs.  
Brown's Hard Luck and the Detective,"  
"Love vs. Title," and "The Hen  
With the Golden Egg." All of these  
are new to this city, and according to  
the information received from Seattle  
they are very good subjects, and have  
been decided hits wherever they have  
been shown. In addition to the bio-  
scope the orchestra is in attendance  
every evening. These entertainments  
commence at 8 o'clock with an orches-  
tral concert and the pictures are  
thrown on the screen as soon as it is  
sufficiently dark to show them to ad-  
vantage.

In compliance with the suggestion  
made a few days ago regarding the  
lack of patriotism among the majority  
of Victorians they have secured an  
excellent picture of His Royal High-  
ness King Edward, which is shown  
on the screen at the close of the per-  
formance. While this picture is being  
shown the orchestra plays the National  
Anthem and in this way many visitors  
are shown that Victorians are loyal to  
their ruling sovereign.

In addition the Japanese tea gardens  
are rapidly nearing completion, and it  
is expected that they will be opened to  
the public shortly after the first of  
the month. When finished this will  
make one of the most interesting features  
of the Gorge. Already it is presenting  
a very neat appearance. Although it  
will be opened to the public within the  
next few weeks it will not be finally  
completed for more than a year. It is  
not only the evening entertainments  
that are attracting attention to the  
pretty resort, but the swimming beach  
in connection with the park is prov-  
ing a boon to bathers. Every after-  
noon sees a large number enjoy a dip  
in the briny, and it is no unusual sight  
to see as many ladies as men enjoying  
this popular pastime.

Boys Remanded.  
The two boys who were arrested  
last week on a charge of having enter-  
ed and stolen a couple of packages of  
matches from Todd's warehouse,  
Wharf street, appeared before Magis-  
trate Hall in closed court yesterday  
morning. Hearing of the case was ad-  
journd till this morning.

Use telephone to Chilliwack.

Draft control—perfect  
draft control, that's one  
thing you'll like about  
this range. Specially  
big fire door  
has an extra draft  
slide at top. In-  
side that slide  
there's a shield  
that carries the  
draft DOWN  
under the fire  
—and up again.

## OXFORD CHANCELLOR

The Right Steel Plate Range

There's no  
range that gives  
you so much kitchen  
comfort for the money—  
so much certainty that it  
WILL cook right and  
can't help but BAKE  
right. Won't you  
call and see it?

THE GURNEY FOUNDRY CO.,  
Limited—Toronto Montreal  
Hamilton Winnipeg  
Calgary Vancouver

Burns either wood or coal  
with real economy, be-  
cause the draft system is  
always under your control  
—easy to handle as to set a  
clock ahead or back. Special  
design for B. C., has ALL-  
IRON fire box-lining, and  
special FLAT grate—far less  
repairs, and gets far more  
good from the heat even though  
it burns fuel other ranges cannot.

For sale by Ogilvie Hardware Co., Ltd., sole retail agents.

## DINNEFORD'S

# SUNSHINE FURNACE

NOT SHAKING. JUST A GENTLE ROCKING OF THE LEVER.

Shaking is a hard, back-breaking exercise, peculiar to common furnaces, while you can stand erect at the Sunshine—and moving the lever, to and fro, about half the length of your arm, a few times, is mere play. A child can easily do it.

Grates of the Sunshine are in two sections—right and left. By gently rocking the lever, a few times, the ashes are released from the right. Repeat the operation on the left and the ashes from that side drop into the ash-pan, too. You couldn't wish for anything easier than the Sunshine Method.

When this lever is not in use it can be disconnected from the grates and the opening capped. But when connected it fills up the opening so snugly that no dust from the falling ashes can escape.

Every detail is thought of on the "Sunshine"—that's what makes it the best.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

## JAPANESE METHODISTS HAVE NATIVE BISHOP

Dr. Honda Was Recently Elected To Position and Consecrated

Rev. Drs. Carman and Sutherland, general superintendent and secretary respectively of the Methodist church in Canada, who returned from Tokyo by the R. M. S. Empress of Japan yesterday, have been taking part in a notable event, the first Methodist conference held in Japan, when the church work in Japan was turned over to native administration, and Dr. Y. Honda was elected as the first Japanese bishop by 42 votes of a total of fifty delegates. He was consecrated at Aoyama, the sermon being preached by white-haired Bishop Wilson, who is in his 73rd year, and has been fifty years in the ministry.

Dr. Honda, who is the first native candidate in Japan, or the Far East, to be promoted to episcopal office, was born at Hiroaki in 1848. He was converted at the age of 24 and has

served the church faithfully since that time, both as educator and minister. At first it was his intention to devote himself to politics, but this purpose was abandoned in 1885 when he decided to devote himself to church work. He was elected president of Aoyama Gakuin in 1890 and besides his duties in connection with the college and with his own conference has served in official capacity under the Y. M. C. A. and other organizations. The bishop has made a number of visits to America and Europe either for the prosecution of his studies or as a representative of Christian interests. He is a man of unquestioned piety, gentle disposition, good executive ability and wide influence. As a leader of a united organization, during its first period of history, Bishop Honda, because of his tactfulness and breadth of spirit, will, it is considered, prove himself admirably fitted for the difficult task entrusted to him by the conference.

**Fatality at Fernie.**  
Fernie, June 22.—Jas. Happell was killed, and Evan Thomas fatally injured by the explosion of a blasting shot in No. 6 prospect mine, near here, yesterday. Two miners were slightly injured. Andrew Marshall, a Scotch boy 15 years old, engaged as a sampler in the coke ovens, fell in front of the donkey engine and had his leg cut off below the knee. He was taken to the hospital and will recover.

Some think water is pure because it is carbonated—charged with carbonic acid gas. That is wrong. Carbonating water doesn't purify it. Carbonic acid gas doesn't cleanse water. Plenty of carbonated waters are just ordinary city water, charged with gas. That gas is mostly made by the action of sulphuric acid on whiting (such as is used for calclmining), or from the fumes of burning coke. Pleasant, isn't it? Even spring waters that are naturally fizzy, carbonated far within the earth, are not always safe to drink. Natural carbonation is likely to load water with more lime or magnesia than the system ought to get. So a natural fizzy water may be wholesome and it may not. The safe way—doctors think the only safe way—for people who like carbonated water, either plain as a beverage, or as a diluent for spirits—is to get an ideally pure spring water, charged with purified carbonic acid gas, and Carbonated and bottled under absolutely safe, cleanly, and scrupulously sanitary conditions. Water like that is zestful, refreshing, wholesome, and enhances the flavor of whatever it dilutes—liquors especially. The water that surely meets every requirement is sold in your neighborhood by merchants who care for the custom of particular people, and in your city by the right kind of

**York Sparks**  
(York Springs Water, charged with purified carbonic acid gas and bottled at the Springs for surety of purity.)  
Ideally Pure York Springs Water is the basis of these beverages: York Springs Water (natural), York Sparks (York Springs Water charged with purified carbonic acid gas), York Ginger Ale, York Sarsaparilla, York Soda, York Potash Water, York Aperients (the perfect laxative).

## JAPANESE URGING A FIRM ATTITUDE

On Part of Their Country in Connection With the San Francisco Affair

Advices were received by the steamer Empress of Japan, which reached port yesterday that Messrs. Yamaoka of the Japanese Association at Seattle and Yamada, of San Francisco, are at Tokio endeavoring to rouse public opinion in Japan against America. They have been appealing to the elder statesmen, Japanese chambers of commerce and ministers. Yamaoka, of Seattle, in an interview with Viscount Hayashi, foreign minister, urged the adoption of proposals that Japan reject the American-Japanese treaty mutually restricting immigration, that the latter part of article 2 of the commercial treaty be deleted when the treaty is revised in 1909, this passage being the stipulations of the article shall not affect "the laws, ordinances and regulations" in regard to immigrants and other matters, "which are in force or may hereafter be enacted in either of the two countries," and that commissioners should be sent to California by the Tokyo government to investigate the matter on the spot.

In reply Viscount Hayashi is reported to have stated that a proposal had been made by the United States government for the adoption of a treaty for the reciprocal prohibition of immigrants but the Japanese government did not agree to it, and was resolved not to agree to such an arrangement in future. The government was in agreement with the view that the last clause of article II. of the existing treaty between Japan and America should be deleted and was determined to use its utmost endeavor to carry it through in the course of the negotiations for the revision of the treaty in 1909; but it was natural that the United States government would urge just as strongly that the clause be returned. The government at present had no plan formulated for obtaining the removal of the clause.

The government was convinced of the necessity of sending a commission to America as suggested by Mr. Yamaoka, and Viscount Hayashi believed that plan would be carried out.

Viscount Hayashi in an interview with Osaka Mainichi said it appeared to be believed in American circles that if the despatches which have passed between the two governments were published the public mind would be cleared of misunderstanding. From the Japanese point of view, he believed, this course would make matters worse, and the authorities would not be ruled by outsiders in this matter. A representative of the foreign office at Tokio will shortly proceed to San Francisco.

While the majority of Japanese newspapers discuss the San Francisco question calmly several received by the C. P. R. liner have a most belligerent tone. The Hochi Shimbun, organ of Count Okuma, says in its remarks about the question: "It is hoped the American government will take the proper measures and will know that Japan does not keep a standing army as a mere ornament."

A Tokyo economical magazine, the Toyo Keizai, urges Japanese to be determined and not permit racial prejudice to overstep the bounds. The paper adds: "When they go to the extreme of arrogance and tyranny pressing on our nationals there is no way of rescuing the situation, but that of gun fire." It concludes by urging the government to be firm, declaring that if need be, in upholding Japan's national dignity, "we should not refuse to go to war." Some of the newspapers take the more belligerent papers to task for their statements.

### KITAMAAT DISTRICT

Some Signs of Progress Visible at Northern Port

J. K. Pine, a six year old locator at Kitamaat, is in Essington. "There is not much doing at Kitamaat just now," said Mr. Pine to the Sun, "but we expect great things later on. Some 25 C. T. P. surveyors, under Engineer McCracken, are steadily extending their operations northward toward the canyon. The wharf, erected some years ago, is fast collapsing, a portion of it having been carried away lately.

"The government has splendid property in their 20-mile block of reserved timber. It was reserved as far back as 1858. Above what is known as the 10-mile limit all timber has been staked for a Mr. Cameron, a Seattle man. The area comprises some 80 claims.

"The work of clearing the site for the Indian school which the Methodist church of Canada is about to erect at Kitamaat, has commenced. Twenty-five thousand dollars will be spent on the school and grounds and when completed will be one of the finest in British Columbia, if not in Canada. The Kitamaat Indians are all Methodists.

"There are a number of squatters there, too," concluded Mr. Pine, "who are bringing their claims before the government in an effort to secure recognition, and they are meeting with marked success."

### The King's Clubs

King Edward is a member of a dozen of the best clubs in a London, embodying social, sporting, dramatic, military and literary. A political club he may not join, and in the vast field of social clubs his voice is limited. In the clubs of which the King is a member it is always understood that any candidate recommended by his majesty is elected without the ordeal of the ballot. Of course, the King's visits to his clubs are rare, since the duties of the throne usurp the major portion of his time, and nowadays his membership is mostly honorary.

The King's favorite club is the Marlborough, which is made up of 500 selected members, who pay an entrance fee of thirty guineas. It is situated in Pall Mall near Marlborough house, and he belongs to four other neighboring clubs—the Guards, the Army and Navy, the United Service and the United University. He is also a member of the Savage club, London's great home of upper Bohemianism in the Adelphi, the Turf, the Garrick, the Royal Thames and the Cavalry.—T. B. S.

### Balloon Killed Thirteen

Vienna, June 24.—Thirteen persons were killed, and a balloon accident near Debreczin, Hungary. Three aeronautes, two French officers and one Austrian officer fell from the balloon and were killed. Peasants in trying to capture the balloon approached it with a light and the balloon exploded, killing ten of them.

## WRECK ON GREAT NORTHERN.

Passenger Train Meets With Mishap Near Everett.

New Westminster, June 24.—A smash up on the C. N. R. line between Everett and Seattle delayed the incoming Seattle train last night, causing it to arrive in this city about half an hour behind scheduled time. The train, which was a through passenger from the East, was slightly behind time and was travelling at a high rate of speed in the endeavor to catch up when the engine suddenly jumped the track.

The rate at which they were travelling jerked the baggage coach from the rails, and brought the rest of the train to a standstill. The baggage coach still remained on the ties, but the engine plunged down the side of the grade and fell over into a ditch. No other coaches were derailed, and beyond a shaking, the passengers are reported to have escaped without injury, as did also the engineer and fireman, both of whom were thrown off on the opposite side from which the engine fell.

The wrecking crew was at work when the Seattle train came along. No cause is ascribed for the accident, but the supposition is that it was due to a defective rail.

### When Your Health Fails, What Then?

Good health is the capital of persons who earn their livings by brain and muscle. Success is for the strong and alert—for those whose blood is rich and whose nerve cells are filled with vigor and energy. It is not pleasant to contemplate what might happen with failing health, and for this reason it is well to heed the first symptoms of nervous exhaustion and to keep health at high water mark by using Dr. Chase's Nerve Food.

John W. Gates, the plunger, wears gold-bowed spectacles and looks as mild mannered as a country storekeeper, which he is not.

## WHEAT DOING WELL IN SASKATCHEWAN

Member of Victoria Firm Tells of Conditions As He Saw Them

The following interview with George G. Blackstock, of Blackstock & Co., real estate agents, Victoria and Regina Daily Standard.

"After a tour of eight days through the wheat fields of the north country George G. Blackstock returned to the city last night and to the Standard today he gave a story of bright prospects for the season. His trip took in the districts of Madena, North Battleford, Quill Lake, Humboldt, Langham, Warman and Battleford, and during that time he saw not one field of wheat that did not look well. The rains have been general all over the province, and the wheat was seeded in good shape. It is now well advanced, and will average about four inches in height. The best fields to be found, however, are right at Condie, seven miles northwest of Regina, where the grain is between four and five inches high and looking fresh and green.

Despite the reports to the contrary which have been sent out, Mr. Blackstock comes home fully convinced that the acreage this year will be very considerably increased over last. Taking the summer fallow and breaking together, he believes there will be a somewhat larger area in crop this year than was the case during the season of 1906. A large acreage is in crop for the first time, on the new land, and many settlers are this year to take off their first harvest.

"Settlers are coming in fast these days, he says, the Canadian Northern main line trains having big loads to haul. The settlers all go as far as Warman and branch off from that town. At Warman the other day he saw one C. N. R. freight train of 30 box cars, 28 of which were loaded with settlers' effects, and represented as many families coming into the country."

"North Battleford and Saskatoon show the greatest advances in building progress, each of the places having many fine brick and stone structures under construction. At Saskatoon it is estimated that a million dollars worth of new buildings are under way."

Free samples of "Preventives" and a booklet on Colds will be gladly mailed you, on request, by Dr. Shoop, Racine, Wis., simply to prove merit. Preventives are Little Candy Cold Cure tablets. No Quinine, no Laxative, nothing harmful whatever. Preventives prevent colds—as the name implies—when taken early. They break up a cold or a sore throat or a Grippe break it up safely and quickly with Preventives. Sold by Cyrus H. Bowles.

### Lords' Power Should Be Reduced

The following is the text of the resolution on the subject of the House of Lords, which Premier Campbell-Bannerman will move in the House of Commons on June 24:

"That in order to give effect to the will of the people expressed by their elected representatives, it is necessary that the power of the other house to alter or reject bills passed by this house should be so restricted as to secure within the limits of a single parliament the final decision of the House of Commons shall prevail."

It is understood that this resolution has been approved by a full meeting of the cabinet, and the expectation is that it will last three or four days, and prove one of the most interesting of the session.

The Abbey Chase estate, Chertsey, including the Abbey river, is for sale. The river, which is nearly three miles long and romantically situated, flows round from Penton Hook to below Chertsey Weir.

## CHINESE REVOLUTION

IS WELL ORGANIZED

Rebel Leader Appears to Have His Followers Well in Hand

Refugees were flocking to Hongkong from the districts affected by the revolution in South China when the steamer Empress of Japan, which arrived in Victoria yesterday left Hongkong. All reported the revolutionary movement as a most pretentious one, the rebels being organized into an army after European methods under the leadership of Sun Yat Sen, a noted Chinese revolutionist. War notes, which the rebel leaders promised to redeem at twice their face value after the fall of Canton, were being issued, proclamations posted, in Chinese and English, and have six parts, firstly for the overthrow of the Manchu dynasty, establishment of republican government, nationalization of land and utilities, establishment of union between China and Japan, and union of Chinese administration with assistance of foreign powers. Most of the aims used are French quick-firing rifles and machine guns, smuggled during the past three years by way of Amoy and Canton.

After capturing the towns on the way to Swatow the rebel forces moved again northward, seemingly making toward Canton. Huichow, on the Woonoon mainland opposite Hongkong, was captured, the imperial troops being badly worsted. France is taking advantage of the outbreak to press for a French expedition being sent to Canton to protect that city, and Peking officials are reported as strenuously opposing such a move. Supplies for the rebels are reaching Hongkong in the names of foreign firms.

Some bloody incidents are reported. At Wongkong, near Swatow, where the civil and military officials were butchered as at other cities. Huang, a customs official, was killed before a standard of the rebels and the standard was sprinkled with his blood, as were some of the banners. This was done in accord with an ancient custom to secure an omen of success. Families of some of the officials were forced to drown themselves in wells. Refugees are arriving in sad condition, many having abandoned everything, even sick and children in their precipitate flight.

Outbreaks have been reported also from Hunan and Szechuan, and seizures of contraband arms are being made at Kobe, where at the request of Viceroy Yuan Shih Kai the Japanese government was asked to prevent a large shipment of arms being sent to China by a German firm.

### FRANCE SIMMERS DOWN

Disturbance in the Wine District Thoroughly Suppressed

Paris, June 22.—A profound sense of relief pervades the French capital tonight at the check to the outbreak in the south, which is described by Premier Ribot as the worst internal crisis in France in the past 37 years. The government now apparently is satisfied that it has the situation well in hand. Overwhelming forces of troops garrison the whole area to prevent a recrudescence of the armed revolt against the central power. Such a mobilization of military forces has not previously been witnessed in the life of the third republic.

Tonight's despatches represent that a general surface calm prevails, although there are one or two storm centers in isolated districts. There are some evidences, too, of anxiety over possible developments tomorrow, Monday being France's favorite day for a demonstration. Both the civil and the military authorities, however, have made ample preparations for all eventualities.

Senators and deputies representing the south called at the Elysee Palace tonight and asked President Fallieres to intervene personally to secure the release of the members of the Argeliers committee under arrest, as the surest means for ensuring pacification. The president replied that his office did not permit him to comply with the request.

No further disturbances of importance were reported today, the numerous troops returning to their barracks at Agda, and the roll call showing only one man missing.

The Chamber of Deputies passed the wine frauds bill, enabling the government to put the measure into immediate effect, and to remove the principal grievances of the wine growers, and the bishops in the disturbed area exhorted the people to avoid any further violence.

Premier Clemenceau was able to give his colleagues a generally hopeful report of the situation, but the planned visit of President Fallieres to Rouen and Bordeaux and all the military engagements for functions in the immediate future were cancelled. These included the dinner which was to have been given by the French Chambers of Commerce on Monday in honor of Sir Wilfrid Laurier, the Canadian premier, W. S. Pilling, the Canadian minister of Finance, and L. P. Brodeur, the Canadian minister of marine.

A new feature of the situation was the statement by the Minister of Justice that among the persons arrested during the rioting were members of local royalist clubs, which are the cabinet's main target of a great deal of politics is mixed up in the movement.

### TRAIN'S NARROW ESCAPE.

Caught on a Burning Bridge on Lake Superior Section.

Port Arthur, Ont., June 24.—One of the worst railway accidents of the year was narrowly avoided east of Nipigon yesterday, when the second section of No. 2, which was crowded with immigrants for the West, was almost burned on the track.

When the train rounded a curve, coming out on a long wooden bridge, the engineer saw the bridge on fire. He applied the emergency brakes at once and then jumped. The train stopped on the burning bridge. Every effort was made to get the immigrants off, the trainmen fearing that the fire would get into the gas tanks and the whole train would be blown up. Flames were blazing all round the cars. The engineer saw the great danger that threatened the people on the train and he rushed through the flames, clambered into his locomotive again and pulled his train over the bridge. Fortunately the train did not catch fire. When the train was safe the men crowded out, and forming a bucket brigade, soon put the fire out.

# ROYAL BAKING POWDER

Imparts that peculiar lightness, sweetness, and flavor noticed in the finest cake, short cake, biscuit, rolls, crusts, etc., which expert pastry cooks declare is unobtainable by the use of any other leavening agent.

Made from pure, grape cream of tartar.

## SIX DEATHS

Rochester, N. Y., June 24.—Five persons were killed and a score more or less seriously injured at 11 o'clock last night on the Auburn branch of the New York Central railroad, one mile east of Pittsford, when passenger train No. 230, which leaves Rochester at 10:25 smashed head on into a freight train. The collision took place on a sharp curve at a point known as Mitchell's Farm. The smoking car was telescoped and four of the fifteen passengers instantly killed. The fifth victim was Eamon Lyons, son of engineer Lyons of the freight, who was in the cab with his father, and who died in a Rochester hospital this morning.

Engineer Lyons, who was brought to Rochester with the dead and injured on a special train, is not expected to live. There are twelve injured in the Rochester hospitals, and all with the exception of Lyons are expected to recover.

The passenger train had been on only a short time, running on Saturdays and Sundays. It is said the conductor of the freight forgot that the passenger was running and overran his orders. An inquest will be held by the coroner.

The revised list of dead in the Pittsford wreck is Eamon Lyons, 11 years, Rochester, son of James Lyons, engineer of the freight train; Miles Cutting, station agent at Railroad Mills, a place near Pittsford; P. G. Broon, East Buffalo, a freight brakeman; K. McArthur, a bridge foreman; an unidentified man, 5 feet six inches, fairly light complexion, bald head, weight about 175 pounds, evidently a railroad man, were light check pants.

## Snow at Butte

Butte, Mont., June 24.—Fourteen inches of snow fell in Butte yesterday, but by nightfall the streets were a mass of slush. The government rain gauge showed a net precipitation of 1 3-4 inches. Extensive damage was done to the trees at Columbia gardens, wet and clinging snow breaking many large and strong branches. The precipitation for the past three days is more than the normal figure for the entire month.

## Heavy Real Estate Deal

New York, June 24.—The Fifth Avenue Hotel, one of the most famous in the country has been sold by the Anos R. Eno estate to syndicate of capitalists headed by Morganthau, president of the Henry Morganthau real estate concern, for \$7,250,000. When the lease of the present tenants expires a year from next October, the structure will be razed and a modern office building will be erected on its site. The brown stone building adjoining the hotel on 23rd street, and the Madison Square theatre on west 24th street are included in the purchase.

The children of Toronto's public schools deposited \$5,580.12 in the Penny bank during May. They have now a total of \$65,888.64 on deposit.

## To Get More Strength from Your Food.

WHEN the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved.

Because food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what happens?

The millions of little Suction Pumps that line the Bowels and Intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That cause of Constipation is Weak, or Lazy Bowel Muscles.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them, not "Physic" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles.

Its name is "CASCARETS," and its price is Ten Cents a box.

So, if you want the same natural action that a six mile walk in the country would give you, (without the weariness) take one Cascaret at a time, with intervals between, till you reach the exact condition you desire.

One Cascaret at a time will properly cleanse a foul Breath, or Coated Tongue.

Don't fail to carry the Vest Pocket Cascaret Box with you constantly.

All Druggists sell them—over ten million boxes a year.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

## MANY MATTERS BEFORE THE OAK BAY COUNCIL

Street improvements, Etc., Discussed at Weekly Meeting Held Last Night

The regular fortnightly meeting of the council of the municipality of Oak Bay was held last evening in the Oak Bay schoolhouse with a full attendance of members. Reeve Oliver was in the chair. The business transacted was nearly all of a routine character. The bylaw for the regulation of sewer connections was given its second reading and referred to a committee for revision, a number of minor amendments being suggested. Chief of these was one to the third clause. This clause provided that all houses must be connected with the sewerage system and it was proposed to make it give the council power to make it optional.

A letter from F. A. Devereaux regarding the nomenclature of the road leading from Poul Bay road to the golf links was referred to a committee. The road is now known by a variety of names and it is suggested that the council give it a permanent one.

City Plumbing Inspector Shade was appointed inspector of house-plumbing and sewer connections for the municipality temporarily.

A report from the engineer on the sewage nuisance on Hampshire road was read. He recommended that if it was only desired to provide for surface drainage a sewer was not required, but outlined a system of sewers if these were desired. The system was deemed inadequate for the growing needs of the district, and the report was referred back to the engineer for a final report on an adequate system.

The engineer tendered a report on road construction work, stating that he found that it was being well and expeditiously carried on, and far cheaper than if by contract. He thought, however, a change in the methods would be necessary soon by the adoption of horsepower or else the council would have to get ready to meet an advance in wages. He recommended that a Mr. Robertson, just arrived from the east be placed in charge of the work. The report was referred to the roads and bridges committee.

V. C. Maddock asked permission to remove some gravel from in front of his property on St. George street, offering to replace it with gravel and soft rock and the request was granted.

The pathmaster reported that last week he had to take seven men from their work on the roads to put out a fire on the golf links. The fire which had broken out some place on the beach was caused, he stated by the carelessness on the part of workmen on the links. It was decided to bill the golf club for the expense entailed.

A long and tedious meeting of the sewer committee was adopted. The items were all of a minor nature.

Accounts amounting to \$1,450 were presented and ordered paid.

J. A. Collett wrote asking what provision the council intended to make for a water service on Island road. Permission will likely be asked of the city to connect a four inch pipe with the city mains.

J. J. Shalleross sent another letter regarding the removal of gravel adjacent to his property causing injury to his fence asking what steps the council intended to take and also about the oak tree in front of his place. Councillors Henderson and Fernie were inclined to settle all further discussions on the oak tree by having it cut down at once and offered a motion to that effect. An amendment by Councillor Newton to refer the matter to a committee was, however, adopted.

Herbert Cuthbert, secretary of the Tourist Association, wrote asking the council to contribute \$250 to a fund to provide for an exhibit throughout the prairie provinces of fruit and other products of Vancouver Island during the summer fairs there. The council decided that they had no funds to spare and anyway if they had, they had no authority to vote any for such a purpose, so the request was denied.

The rose bushes and broom question came near cropping up again as a result of the reading of the minutes of the previous meeting. Councillor Henderson objected to the minutes on the ground that they did not state that the council had recommended its order to have the bushes cut down.

A short discussion followed which was finally settled by the insertion of a paragraph to the effect that such a notice had been considered but in view of the action of the council in giving the property owners a say in the matter it was not found necessary.

## OKANAGAN COAL

Operators Believe Good Deposits Will Be Found

Renewed interest has been aroused in the coal deposits on Mission Creek by the re-location of them last week by W. G. Murray, a gentleman connected with one of the coal mining companies now operating in the Nicola Valley, where they own coal lands at a place called Merritt, says the Kelowna Courier. Mr. Murray has been connected with coal companies for several years and is sanguine as to the presence of a large body of coal on Mission Creek. He does not consider the former locators of the coal carried on their development work in the most advantageous manner, and he thinks it will not be exceedingly difficult to discover a large deposit of coal. He made no statement as to when exploration work will be commenced.

## LETTERS TO THE EDITOR

## Creamery Question.

Sir.—I noticed that in an interview with a reporter for the Times a few days ago the secretary of the Victoria creamery is reported as stating that there is no foundation for the statement I made to a reporter for The Colonist in reference to the establishing of a creamery at Sidney, among other things.

In reference to the letter that was sent to the secretary of the company with an offer of a site at Sidney, I have found that it had not been mailed, but had been sent later with a diagram of the property. I do not think that there are any of the people in Spanish or the Islands would care to do anything that would be detrimental to the Victoria creamery, but on the other hand, they have done all in their power to work in accord with those closer in to Victoria to help it along.

But I think that the idea of the building of a creamery at Sidney is one which you will find has not lately originated, but was spoken of before the present creamery was built, but the idea was abandoned when the present one was erected.

We must deal with facts nevertheless, and I give them in my proposition to those with whom I have come in contact. In the first place, Mr. John Brethour has offered a piece of property 50 by 200 feet adjoining the railroad, with a drop of 18 feet to the water, which is only 10 yards distant therefrom. The best of spring water passes through the land for washing or other purposes, and the water is distant only 200 yards. If a location can be procured to beat this, free of cost or for any consideration, I have never heard of it.

I have been told since my interview with The Colonist that the people on Pender and Mayne Islands in particular have been notified not to ship cream in the summer, which means they must either go out of cows or ship to some other place. The people of these islands are in full accord with the construction of a creamery at Sidney and will, they say, ship to it.

As to the inconvenience of shipping cream and butter to Victoria if the creamery is established at Sidney, like many others, I can not see that it would make a great deal of difference, for there will have to be an agent at Victoria where ever it is located.

Satisfactory arrangements can be made with the steamer to carry all the cream from the islands as well as from South Salt Spring and the Cowichan Wharf and Maple Bay. The people of these islands have, at the present time, to carry their cream from six miles or more to the Cowichan creamery, whereas they could place the cream on the boat for shipment to Sidney without much inconvenience. I do not wish to go into the matter at any length as there will be a meeting at Sidney Wednesday evening to take the matter up, as there has been in the neighborhood of some \$3,000 promised to date if such an institution is started at that point. The people of North Saanich in particular do not wish to leave the other creamery, but as the directors are thinking of moving we feel that North Saanich and the Islands should have some chance in getting the building, having the advantages that no other place can offer.

I may say that the people that I have spoken of simply wait the decision of the directors of the Victoria creamery before taking action in the matter, and for one who is heart and soul interested in the welfare of Saanich and the Islands I hope the directors will bring anything into consideration before coming to a decision.

MORRIS A. THOMAS.  
Sidney, June 21, 1907.

## Treats Life

OXYDONOR is not a drug nor a medicine, nor does it operate on any principle known to medication.

OXYDONOR causes disease to disappear because IT TREATS LIFE.

By its application, the human organism is fortified to any degree necessary to rid itself of disease, as long as the vital organs can play their part.

## Oxydonor

is the cheapest as well as the best way out of disease. It is not difficult to apply. It can be carried in the pocket and used any time. In every form of disease, the action of the OXYDONOR is the same—it intensifies vital force.

Mr. W. H. RAYNOLDS, Halifax, N. S., writes Dec. 26, 1905: "I consider your Oxydonor a little wonder. After using it a few weeks, Rheumatism, from which I was suffering for a year or more, entirely left me. No person afflicted with Rheumatism should be without one."

OXYDONOR is a necessity for every man, woman and child on earth. It will serve the family, and last a lifetime. It is important you should have it.

BEWARE OF FRAUDULENT IMITATIONS. There is BUT ONE GENUINE Oxydonor—and that has the name of the originator—DR. H. SANCHE—engraved in the metal. Look for the name.

## A BY-LAW

To authorize the Sale of a Portion of the Driving Park not required for Corporate Purposes.

The Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. All that piece or parcel of land situate and being in Victoria District (now Oak Bay Municipality) and being a portion of an estate in fee simple, free of all encumbrances, and being purchased by the Corporation from the Bowker Park Company, Limited, and which is more particularly described in a map or plan thereof deposited in the office of the City Engineer and numbered B1 may be sold or disposed of by the Council at such times and upon such terms and conditions in all things as the Council may from time to time by resolution determine.

2. It shall be lawful for the Mayor upon the passing of any resolution of the Council sanctioning the terms of sale to execute, to the purchaser or purchasers, such contract or contracts as he may be advised to be proper for effectuating any sale or sales under the provisions of this By-law; and upon payment of the consideration money upon any sale, to the City Treasurer, to execute and cause the corporate seal to be affixed to a conveyance of the property sold and any such conveyance when executed, shall effectually vest the lands granted thereby in the purchaser or purchasers, free from all incumbrances, but no covenant for title shall be given by or on behalf of the Corporation.

3. All moneys received by the Corporation from the sale of the said described piece of land, or any portion thereof, shall be paid into and form part of the general fund of the City of Victoria.

4. This By-law shall before the final passing thereof receive the assent of the electors of the said Corporation in the manner provided for in the Municipal Charter Act, and shall take effect on the day after the final passing thereof by the Council of the said Corporation.

5. This By-law may, for all purposes, be cited as "The Sale of Lands Authorization By-Law (No. 2) 1907."

Passed the Municipal Council the 17th day of June, 1907.

## NOTICE

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Corner of Street, in Room No. 7, on Wednesday the 2nd day of July, 1907, that the poll will be kept open between the hours of 9 a.m. and 7 p.m., and that William W. Northcott has been appointed the Returning Officer of the said election.

WELLINGTON J. DOWLER, C.M.C.

City Clerk's Office, Victoria, B.C., June 19th, 1907.

## A BY-LAW

To authorize the Sale of the Eastern portion of the James Bay Mud Flats, not required for Corporate purposes.

The Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. All that piece or parcel of land situate in the city of Victoria, and being all that portion of the James Bay Mud Flats, the Eastern portion of the said flats, situate to the Eastward of the continuation of Douglas street and is more particularly described in the map or plan deposited in the office of the City Engineer and numbered B1, may be sold or disposed of by the Council at such times and upon such terms and conditions in all things as the Council may from time to time by resolution determine.

2. It shall be lawful for the Mayor, after the passing of any resolution of the Council sanctioning the terms of sale to execute to the purchaser such contract as he may be advised to be proper for effectuating any sale or sales under the provisions of this By-law; and upon payment of the consideration money upon any sale, to the City Treasurer, to execute and cause the corporate seal to be affixed to a conveyance of the property, when sold, and any such conveyance, when executed, shall effectually vest the lands granted thereby in the purchaser or purchasers, free from all incumbrances, but no covenant for title shall be given by or on behalf of the Corporation.

3. All moneys received by the Corporation from the sale of the said described piece of land, or any portion thereof, shall be paid into and form part of the general fund of the City.

4. This By-law shall before the final passing thereof, receive the assent of the electors of the said Corporation in the manner provided for in the Municipal Charter Act, and shall take effect on the day after the final passing thereof by the Council of the said Corporation.

5. This By-law may, for all purposes, be cited as "The Sale of Lands Authorization By-Law (No. 1) 1907."

Passed the Municipal Council the 17th day of June, 1907.

## NOTICE

Take notice that the above is a true copy of the proposed By-law, upon which the vote of the Municipality will be taken at the Public Market Building, Corner of Street, in Room No. 7, on Wednesday the 3rd day of July, 1907; that the poll will be kept open between the hours of 9 a.m. and 7 p.m., and that William W. Northcott has been appointed the Returning Officer of the said election.

WELLINGTON J. DOWLER, C.M.C.

City Clerk's Office, Victoria, B. C., June 19th, 1907.

## A BY-LAW

To enable the Borrowing of a Further Sum of \$50,000. Secured upon the Frontage Rents or Taxes and Sewer Connection Rental with the Guarantee of the City of Victoria.

Whereas it is intended to borrow upon the security of the frontage rents or taxes

and sewer connection rentals imposed by the Sewers By-Law, 1902 (No. 10), the further sum of \$50,000 to be expended in the extension of the sewers within the City of Victoria.

And whereas it is proposed to give the guarantee of the Corporation for securing the moneys so intended to be borrowed.

And whereas the said "Sewers By-Law, 1902" was validated by Section 29 of Chapter 42 of the Statutes of 1903-4 in so far as frontage rents or taxes and sewer connection rentals were thereby assessed and levied upon the owners of land and buildings, and power was given by the recited section to revoke and rescind the assessment and levy made by the said recited By-Law upon occupiers of land and buildings, and such assessment and levy upon said occupiers was accordingly revoked by the "Sewers By-Law, 1902, Amendment By-Law, 1904" (Numbered 42).

And whereas the amount of the said frontage rents or taxes and sewer connection rentals, chargeable for the year 1905 (estimated at \$17,000, and sums aggregating \$500,000, and to be levied upon the security of the same under the provisions of the Sewer Loan Guarantee By-Law, 1902" (Numbered 40) and the "Sewer Loan Guarantee By-Law, 1905" (Numbered 45).

And whereas the moneys intended to be borrowed pursuant to this By-Law will be primarily charged and secured upon the frontage rents or taxes and sewer connection rentals, assessed and levied and to be collected annually under the authority of the said "Sewers By-Law, 1902" now unnumbered amounting to \$1,632.

And whereas the amount required to be collected annually from the said frontage rents or taxes and sewer connection rentals to pay the interest upon the said debt aggregating \$200,000, and to repay the said debt by sinking fund within fifty years is \$13,968, and the amount required to be collected to pay the said debt upon the said additional sum of \$50,000 and to repay the said additional debt by sinking fund is \$2,328, making together the annual sum of \$16,296, and it is estimated that there will not be any deficiency.

And whereas it is proposed to borrow the said sum of \$50,000, upon debentures as hereinafter appearing.

And whereas, by the said recited By-Law, No. 10, the said frontage rents or taxes and sewer connection rentals when received are directed to be carried to a joint fund entitled "The Sewer Rental and Sewer Tax Fund," and are to be expended in the extension of the sewerage system of the city, and the construction and maintenance of the same, and in making provision for the payment of principal, interest and sinking funds where moneys are borrowed on the security of the same, in such manner and at such time or times as the Municipal Council shall from time to time think expedient.

And it is desired by this By-Law to give effect to such provisions:

Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. The moneys raised under this By-Law shall be expended in the construction of sewers and for the purposes generally mentioned in this By-Law, and for no other purpose.

2. It shall be lawful for the Mayor of the Corporation of the City of Victoria to borrow upon the security, primarily, of the said frontage rents or taxes and sewer connection rentals, and by way of guarantee upon the credit of the said Corporation by way of the debentures hereinafter mentioned, from any person or persons, or any or bodies corporate, who may be willing to advance the same as a loan, a sum of money not exceeding in the whole sum of \$50,000, currency or sterling money (at the rate of 18 1/2 dollars to the one pound sterling) and to cause all such sums so raised or received to be paid into the hands of the Treasurer of the said Corporation, for the purpose and with the object hereinafter referred to. The said guarantee of the City to be contained in the said debentures shall be in the following terms, or as near thereto as may be:

"The payment of the principal moneys and interest thereon under this debenture at the respective dates when the same fall due under the terms of this debenture, is hereby guaranteed by the Corporation of the City of Victoria."

the streetways, buildings were decorated, notably the C. P. R. hotel and Colonist buildings, and at an arch—the familiar kabuki-men of Japan—the Japanese colony gathered to shout "banzai," while a little girl of Nippon, Miss Togo, presented a bouquet to His Imperial Highness. A guard of honor of 125 men from the Fifth Regiment, C. A., in command of Capt. Angus, and with Lieuts. Duncan and Prior as subalterns, presented arms as the Prince and party, with Lieut.-Governor Dunsmuir and the reception committee which welcomed the visitors to Victoria, left the C. P. R. dock, the regimental band meanwhile playing the "Kim-ga-yo," the national anthem, which an English bandmaster gave to Japan following the adoption of western music.

A glorious day was dawning toward evening and the softer hues of approaching sunset were replacing the brighter lights of the afternoon as the great crowd gathered. Belleville street was lined, available verandahs were crowded, and the coping of the stone causeway was lined, across James Bay showed a human fringe. At the wharf, officials awaited the landing of the Prince, Lieut.-Governor Dunsmuir, who was in Windsor uniform, was attended by Major Audin and Capt. Drake as aides, and Mr. Musket, private secretary and Senator Riley, while Hon. R. G. Tatlow and Hon. H. E. Young, represented the provincial government. Among the others present Col. Holmes, D. O. C.; Col. Grant, P. M. A. O.; Col. Hall, Capt. Williams and other officers of the local forces, Capt. J. E. Tuke, ex-Lieutenant-Governor Dewdney, Lieut.-Col. Prior and others, with a delegation of prominent Japanese from Victoria, Vancouver and Seattle.

Prince Fushimi and his party were entertained at luncheon by the C. P. R. officials on board the Princess Victoria, the dining room being beautifully decorated with carnations, roses and sunflowers and Bantley's orchestra from this city played during the trip from Vancouver. On landing from the steamer walking with Lieut.-Gov. Dunsmuir, the prince inspected the guard of honor and was then driven away, followed by carriages containing other members of his party, to Government house by way of Government and Yates streets. There was no cheering. As the party passed the Empress hotel the decorations were admired and the red-balled flag of Japan was seen floating from the flagstaff above the building. Later the

building was illuminated, the golden sixteen-leaved chrysanthemum, the emblem of the emperor, which police would have ordered taken down if used in Japan, and the British crown were shown with incandescent lights, as was the word "Banzai," both in Roman letters and Japanese ideographs, and the words "Empress Hotel."

At Yates street, where the Japanese had built a typical arch, with odd-painted cartoons representing John Bull shaking hands with a Samurai of Japan, the members of the local Japanese colony had assembled and there the carriage of the prince, who was briskly conversing with the lieutenant-governor, was stopped while a little Japanese girl presented a bouquet. The prince smiled his satisfaction and the carriage proceeded, arriving without incident at Government house.

The party is made up as follows: General His Imperial Highness Prince Fushimi, G. C. B.

Mr. Michiori Sogo Nagasaki, commander of the court of His Imperial Majesty the Emperor of Japan.

Mr. Saburo Baba, K. C. V. O., grand-master of the household of His Imperial Highness Prince Fushimi.

Major Ootoko Higashi, M. V. O., artillery, aide de camp to His Imperial Highness Prince Fushimi.

Dr. Teizo Iwai, M. V. O., physician to His Imperial Highness Prince Fushimi.

Lieutenant Commander S. Takeuchi, imperial Japanese navy.

Mr. Shigehiro Tokioka attache to the bureau of ceremonies, the imperial household.

Mr. Shigetaro Kurosawa, attache to the bureau of ceremonies, the imperial household.

Mr. Motohiko Tsuda, attache to His Imperial Highness Prince Fushimi.

Mr. T. Nosse, imperial consul-general for Japan in Canada.

Mr. Miles W. Lamson, M. V. O., representing the British foreign office.

Captain D. O. C. Newton, A. D. C., representing his excellency the governor-general.

Mr. Joseph Pope, C. M. G., I. S. O., representing the Dominion government.

Mr. W. R. Baker, representing the Canadian Pacific Railway company.

There are also three members of the Dominion police, Mr. Ferguson and Mr. Smith, of the C. P. R.

As a mark of appreciation of the attention His Imperial Highness Prince Fushimi of Japan has received during his visit to Canada the emperor has conferred the following decorations: Upon Sir Thomas Shaughnessy, president Canadian Pacific railway, the Order of the Sacred Treasure of the Second Class; upon Charles M. Hays, second vice-president Grand Trunk

fourteen years, who could not swim, was bathing with two other boys in the Welland river and dived into a deep place. Chambly Wilson, about the same age, made a noble attempt to rescue Lister. He dived and found him but could not bring him to the surface.

**EMMERSON LIBEL CASE**  
Counsel for Complainant Want a Prolonged Postponement

Fredericton, June 24.—Mr. Barry, who represents Hon. Mr. Emmerson, in the absence of Mr. Pugsley, today asked for a reserved case. This was strongly opposed by Mr. Hazen, who argued that there could not be a reserved case without a trial, and moved accordingly that Mr. Crockett be discharged. Judge Landry ruled in favor of Mr. Barry on the question of a reserved case, but wanted the case heard at once. After prolonged argument, Mr. Barry pleading for lengthy postponement of the case, Judge Landry adjourned court and will give his decision tomorrow.

**BERATES DR. SPROULE**  
Le Canada Has Objections to His Vancouver Speech

Montreal, June 24.—Le Canada is angry at Dr. Sproule, and asks who can possibly object to Sir Wilfrid Laurier going to Rome in order to kneel down before the Supreme Chief of his religion. "The idea, however, that he went to Rome with his ministers, in order to make political capital, could only have germed in the putrid brain of the Orange leader," continues the article, "we are, therefore, in the presence of a vile calumny, for the purpose of setting orangemen against the Liberal party, consequently we cannot find words strong enough or violent enough to throw back at this speaker, the words from which Catholics and French Canadians have already received base insults. It exceeds, in fact, the cynicism of Hughes denouncing the French Canadian clergy as a public calamity. No political party in Canada should tolerate in its ranks a man whose brain is sick enough to imagine such things and a tongue shameful enough to repeat them."

**New County Court Judge**  
Winnipeg, June 24.—Alexander Dawson, the well known barrister of Winnipeg will be gazetted a county court judge for Manitoba in a few days. Mr. Dawson has been a resident of the west for a long time and has been closely associated with educational work, particularly in connection with Manitoba college. For some time he filled the position of police magistrate.

**St. Jean Baptiste Day**  
Montreal, June 24.—Today was a holiday with the French Canadian section of the population in honor of their patron saint, St. Jean Baptiste. This morning many thousands attended high mass at Notre Dame church, at which Bishop Ellard of Vallefield, was celebrant. Apart from the marching of societies and parishes to the church, the big parade, customary of the day, was omitted. This afternoon the St. Jean Baptiste society is holding annual sports and games at St. Helen's Island.

**BALMACEA'S MURDER**  
Trial of Carlos Waddington, the Murderer Commences

Brussels, June 24.—The trial of Carlos Waddington, the 16 year old son of Senor Luis Waddington who was charged de affairs for Chili here, on the charge of murdering Senor Balmaceda, secretary of the Chilean legation on the 24 last, opened today.

Balmaceda was engaged to be married to Miss Waddington, the daughter of Senor Waddington, and a leading member of Brussel's society. The murder occurred on the evening of the official dinner. A few days before the tragedy Balmaceda, requested the Waddingtons to postpone the wedding ceremony, and on the morning of February 24 he called upon Mrs. Waddington, and announced his determination to withdraw from the marriage altogether. He admitted, it is charged that he had behaved improperly towards Miss Waddington, but accused the woman of having misbehaved before he met her. Later when young Carlos Waddington found his mother prostrated as the result of her interview with Balmaceda, he drove to the home of the latter, who was his personal friend, and after a quarrel shot and killed him.

The contention of the Balmaceda family is that the Waddington family had tried to force the marriage upon the young secretary of the legation, and that upon his refusal they resolved to get rid of him.

The Waddingtons submit as justification for Carlo's act that Balmaceda had refused to redress the wrong he had done Miss Waddington.

The prisoner, who was markedly nervous on entering the court, quickly recovered his presence of mind. The trial is expected to last a long time. There are about sixty witnesses to be examined.
